WELCOME

Welcome to WellCare of North Carolina by Celtic Insurance Company. Thank you for participating in our network of high-quality physicians, hospitals, and other healthcare professionals.

WellCare of North Carolina's Health Insurance Marketplace plans target a consumer population of lower income, previously uninsured individuals, and families who, prior to having this health insurance, may have been Medicaid-eligible or unable to access care due to financial challenges.

Partnering with WellCare of North Carolina provides an opportunity for you to access a previously untapped consumer population by providing coverage to those who qualify for generous premium and cost sharing subsidies. WellCare of North Carolina has been very successful in attracting and retaining our target population and continues to focus on engaging and acquiring these subsidy-eligible consumers through its unique plan designs, incentive programs, and effective communication.

WellCare of North Carolina is a Qualified Health Plan (QHP) as defined in the Affordable Care Act (ACA). WellCare of North Carolina is offered to consumers through the Health Insurance Marketplace, also known as the Exchange. The Health Insurance Marketplace makes buying health insurance easier.

The Affordable Care Act is the law that has changed healthcare. The goals of the ACA are:

- To help more Americans get health insurance and stay healthy; and
- To offer consumers a choice of coverage leading to increased health care engagement and empowerment.

NONDISCRIMINATION OF HEALTH CARE SERVICE DELIVERY

WellCare of North Carolina complies with the guidance set forth in the final rule for Section 1557 of the Affordable Care Act, which includes notification of nondiscrimination and instructions for accessing language services in all significant member materials and physical locations that serve our members.

All providers who join the WellCare of North Carolina Provider Network must also comply with the provisions and guidance set forth by the Department of Health and Human Services (HHS) and the Office for Civil Rights (OCR).

WellCare of North Carolina requires providers to deliver services to WellCare of North Carolina members without regard to race, color, national origin, age, disability, or sex. Providers must not discriminate against members based on their payment status and cannot refuse to serve based on varying policy and practices and other criteria for the collecting of member financial responsibility from WellCare of North Carolina members.

Newborns and Mothers' Health Protection Act

The Newborns' and Mothers' Health Protection Act (the Newborns' Act) provides protections for mothers and their newborn children relating to the length of their hospital stays following childbirth. Under the Newborns' Act, group health plans may not restrict benefits for mothers or newborns for a hospital stay in connection with childbirth to less than 48 hours following a vaginal delivery or 96 hours following a delivery by cesarean section. The 48-hour (or 96-hour) period starts at the time of delivery, unless a woman delivers outside of the hospital. In that case, the period begins at the time of the hospital admission. The attending provider may decide, after consulting with the mother, to discharge the mother and/or her newborn child earlier. The attending provider cannot receive incentives or disincentives to discharge the mother or her child earlier than

48 hours (or 96 hours). Even if a plan offers benefits for hospital stays in connection with childbirth, the Newborns’ Act only applies to certain coverage. Specifically, it depends on whether coverage is “insured” by an insurance company or HMO or “self-insured” by an employment-based plan. (Check the Summary Plan Description, the document that outlines benefits and rights under the plan or contact the plan administrator to find out if coverage in connection with childbirth is “insured” or “self-insured.”) The Newborns’ Act provisions always apply to coverage that is self-insured. If the plan provides benefits for hospital stays in connection with childbirth and is insured, whether the plan is subject to the Newborns’ Act depends on state law. Many states have enacted their own version of the Newborns’ Act for insured coverage. If your state has a law regulating coverage for newborns and mothers that meets specific criteria and coverage is provided by an insurance company or HMO, state law will apply. All group health plans that provide maternity or newborn infant coverage must include in their Summary Plan Descriptions a statement describing the Federal or state law requirements applicable to the plan (or any health insurance coverage offered under the plan) relating to hospital length of stay in connection with childbirth for the mother or newborn child.

CREDENTIALING AND RE-CREDENTIALING

The credentialing and recredentialing process exists to verify that participating practitioners and providers meet the criteria established by WellCare of North Carolina, as well as applicable government regulations and standards of accrediting agencies.

If a practitioner/provider already participates with WellCare of North Carolina in the Medicaid or a Medicare product, the practitioner/provider will NOT be separately credentialed for the WellCare of North Carolina product.

Notice: To maintain a current practitioner/provider profile, practitioners/providers are required to notify WellCare of North Carolina of any relevant changes to their credentialing information in a timely manner but in no event later than 10 days from the date of the change.

Whether standardized credentialing form is utilized, or a practitioner has registered their credentialing information on the Council for Affordable Quality Health (CAQH) website, the following information must be on file:

- Signed attestation as to correctness and completeness, history of license, clinical privileges, disciplinary actions, and felony convictions, lack of current illegal substance use and alcohol abuse, mental and physical competence, and ability to perform essential functions with or without accommodation
- Completed ownership and control disclosure form unless otherwise prohibited by state requirement;
- Current malpractice insurance policy face sheet, which includes insured dates and the amounts of coverage
- Current controlled substance registration certificate, if applicable
- Current drug enforcement administration (DEA) registration certificate for each state in which the practitioner will see WellCare of North Carolina members
- Completed and signed W-9 form (initial credentialing only)
- Current educational commission for foreign medical graduates (ECFMG) certificate, if applicable
- Curriculum vitae listing, at minimum, a five-year work history if work history is not completed on the application with no unexplained gaps of employment over six months for initial applicants
- Signed and dated release of information form not older than 120 days

- Current clinical laboratory improvement amendments (CLIA) certificate, if applicable

WellCare of North Carolina will primary source verify the following information submitted for credentialing and recredentialing:

- License through appropriate licensing agency;
- Board certification, or residency training, or professional education, where applicable;
- Malpractice claims and license agency actions through the national practitioner data bank (NPDB);
- Federal sanction activity, including Medicare/Medicaid services (OIG-Office of Inspector General).

For providers (hospitals and ancillary facilities), a completed Facility/Provider – Initial and Recredentialing Application and all supporting documentation as identified in the application must be received with the signed, completed application.

Once the clean application is received, the Credentialing Committee will usually render a decision on acceptance following its next regularly scheduled meeting in accordance with state and federal regulations.

Eligible Providers

All eligible providers are required to complete the credentialing process. All eligible providers must be recredentialed every 36 months.

- Professional providers including but not limited to: MD, DO, PsyD, PHD, AUD, BCBA, OD, DC, CNM, DPM, LCSW, LCPC, LMFT, PA, APN, APRN ANP and CNP, CNS, RD, LAC and DN

Institutional providers: Hospitals and Ancillary

Non Registered CAQH Providers

Primary care providers cannot accept member assignments until they are fully credentialed.

Practitioners/Providers should self-register with CAQH ProView at <https://proview.caqh.org>. The CAQH will email the provider a Welcome kit with registration instructions. Practitioners/Providers receive a personal CAQH Provider ID, allowing them to register on the CAQH website at proview.caqh.org and obtain immediate access to the ProView database via the Internet.

Once obtaining authenticating key information, practitioners/providers will have the opportunity to create their own unique username as well as password to begin utilizing the system at any time.

Credentialing Committee

The Credentialing Committee, including the Medical Director or their physician designee, has the responsibility to establish and adopt necessary criteria for participation, termination, and direction of the credentialing procedures. Committee meetings are typically held at least monthly and more often as deemed necessary. Failure of an applicant to adequately respond to a request for missing or expired information may result in termination of the application process prior to committee decision.

Recredentialing

WellCare of North Carolina conducts practitioner/provider recredentialing at least every 36 months from the date of the initial credentialing decision or most recent recredentialing decision. The purpose of this process is to identify any changes in the practitioner's/provider's licensure, sanctions, certification, competence, or health status which may affect the practitioner's/provider's ability to perform services under the contract. This process includes all practitioners, facilities, and ancillary providers previously credentialed and currently participating in the network.

In between credentialing cycles, WellCare of North Carolina conducts provider performance monitoring activities on all network practitioners/providers. WellCare of North Carolina reviews monthly reports released by both Federal and State entities to identify any network practitioners/providers who have been newly sanctioned or excluded from participation in Medicare or Medicaid. WellCare of North Carolina also reviews member complaints/grievances against providers on an ongoing basis.

A provider's agreement may be terminated if at any time it is determined by the WellCare of North Carolina Credentialing Committee that credentialing requirements or standards are no longer being met.

Practitioner Right to Review and Correct Information

All practitioners participating within the network have the right to review information obtained by WellCare of North Carolina to evaluate their credentialing and/or recredentialing application. This includes information obtained from any outside primary source such as the National Practitioner Data Bank, CAQH, malpractice insurance carriers, and state licensing agencies. This does not allow a provider to review references, personal recommendations, or other information that is peer review protected.

Practitioners have the right to correct any erroneous information submitted by another party (other than references, personal recommendations, or other information that is peer review protected) in the event the provider believes any of the information used in the credentialing or recredentialing process to be incorrect or should any information gathered as part of the primary source verification process differ from that submitted by the practitioner. WellCare of North Carolina will inform providers in cases where information obtained from primary sources varies from information provided by the practitioner. To request release of such information, a written request must be submitted to your Provider Relations Representative. Upon receipt of this information, the practitioner will have 30 days from the initial notification to provide a written explanation detailing the error or the difference in information to the Credentialing Committee.

The WellCare of North Carolina Credentialing Committee will then include this information as part of the credentialing or recredentialing process.

Practitioner Right to Be Informed of Application Status

All practitioners who have applied to join have the right to be informed of the status of their application upon request. To obtain application status, the practitioner should contact the Credentialing Department at 1-833-925-2861.

Practitioner Right to Appeal or Reconsideration of Adverse Credentialing Decisions

Applicants who are existing providers and who are declined continued participation due to adverse credentialing determinations (for reasons such as appropriateness of care or liability claims issues) have the right to request an appeal of the decision. Requests for an appeal must be made in writing within 30 days of the date of the notice.

New applicants who are declined participation may request a reconsideration within 30 days from the date of the notice. All written requests should include additional supporting documentation in favor of the applicant's appeal or reconsideration for participation in the network. Reconsiderations will be reviewed by the Credentialing Committee at the next regularly scheduled meeting and/or no later than 60 days from the receipt of the additional documentation in accordance with state and federal regulations.

Written requests to appeal or reconsideration of adverse credentialing decisions should be sent to:

PROVIDER ADMINISTRATION AND ROLE OF THE PROVIDER

Provider Types That May Serve As PCPs

Providers who may serve as primary care providers (PCP) include:

- OB/GYN;
- Internal Medicine;
- Pediatrics;
- General Medicine;
- Family Practice;
- Physician Assistants; and
- Nurse Practitioners.

The PCP may practice in a solo or group setting or at a Federally Qualified Health Center (FQHC), Rural Health Center (RHC), Department of Health Clinic, or similar outpatient clinic. With prior written approval, WellCare of North Carolina may allow a specialist provider to serve as a PCP for members with special health care needs, multiple disabilities, or with acute or chronic conditions if the specialist is willing to perform the responsibilities of a PCP as outlined in this Manual.

Member Panel Capacity

All PCPs have the right to state the number of members they are willing to accept into their panel. WellCare of North Carolina does not and is not permitted to guarantee that any provider will receive a certain number of members.

The PCP to member ratio shall not exceed the following limits:

Practitioner Type	Ratio
General/Family Practitioners	One per 2,500 members
Pediatricians	One per 2,500 members
Internists	One per 2,500 members

If a PCP has reached the capacity limit for their practice and wants to make a change to their open panel status, the PCP must notify WellCare of North Carolina 30 days in advance of their inability to accept additional members. Notification can be in writing or by calling the Provider Services Department 1-833-925-2861. A PCP must not refuse new members for addition to their panel unless the PCP has reached their specified capacity limit.

In no event will any established patient who becomes a member be considered a new patient. Providers must not intentionally segregate members from fair treatment and covered services provided to other nonmembers.

Member Selection or Assignment of PCP

WellCare of North Carolina members will be directed to select a participating Primary Care Provider (PCP) at the time of enrollment. In the event a WellCare of North Carolina member does not make a PCP choice, WellCare of North Carolina will usually select a PCP based on:

1. **A previous relationship with a PCP.** If a member has not designated a PCP within the first 30 days of being enrolled in WellCare of North Carolina, WellCare of North Carolina will review and assign the member to that PCP.
2. **Geographic proximity of PCP to member residence.** The auto-assignment logic is designed to select a PCP for whom the members will not travel more than the required access standards.
3. **Appropriate PCP type.** The algorithm will use age, gender, and other criteria to identify an appropriate match, such as children assigned to pediatricians.

Pregnant members should be encouraged to select a pediatrician or other appropriate PCP for their newborn baby before the beginning of the last trimester of pregnancy. In the event the pregnant member does not select a PCP, WellCare of North Carolina will auto-assign one for their newborn.

The member may change their PCP at any time with the change becoming effective no later than the beginning of the month following the member's request for change. Members are advised to contact the Member Services Department at 1-833-925-2861 for further information.

Withdrawing from Caring for a Member

Providers may withdraw from caring for a member. Upon reasonable notice and after stabilization of the member's condition, the provider must send a certified letter to WellCare of North Carolina Member Services detailing the intent to withdraw care. The letter must include information on the transfer of medical records as well as emergency and interim care.

PCP Coordination of Care to Specialists

When medically necessary care is needed beyond the scope of what the PCP can provide, PCPs are encouraged to initiate and coordinate the care members receive from specialist providers. Paper referrals are not required.

In accordance with federal and state law, providers are prohibited from making referrals for designated health services to healthcare providers with which the provider, the member, or a member of the provider's family or the member's family has a financial relationship.

Specialist Provider Responsibilities

Specialist providers must communicate with the PCP regarding a member's treatment plan and referrals to other specialists. This allows the PCP to better coordinate the member's care and ensures that the PCP is aware of the additional service request.

To ensure continuity and coordination of care for the member, every specialist provider must:

- Maintain contact and open communication with the member's referring PCP
- Obtain authorization from the Medical Management Department, if applicable, before providing services
- Coordinate the member's care with the referring PCP
- Provide the referring PCP with consultation reports and other appropriate patient records within five business days of receipt of such reports or test results
- Be available for or provide on-call coverage through another source 24 hours a day for management of member care
- Maintain the confidentiality of patient medical information
- Actively participate in and cooperate with all quality initiatives and programs

APPOINTMENT AVAILABILITY AND WAIT TIMES

WellCare of North Carolina follows the accessibility and appointment wait time requirements set forth by applicable regulatory and accrediting agencies. WellCare of North Carolina monitors participating provider compliance with these standards at least annually and will use the results of appointment standards monitoring to ensure adequate appointment availability and access to care and to reduce inappropriate emergency room utilization. The table below depicts the appointment availability for members:

Appointment Type	Access Standard
PCPs – Routine visits	30 calendar days
PCPs – Adult Sick Visit	48 hours
PCPs – Pediatric Sick Visit	24 hours
Behavioral Health – Non-life Threatening Emergency	6 hours

Wait Time Standards for All Provider Types

It is recommended that office wait times do not exceed 30 minutes before a WellCare of North Carolina member is taken to the exam room.

Travel Distance and Access Standards

WellCare of North Carolina offers a comprehensive network of PCPs, specialist physicians, hospitals, behavioral health care providers, diagnostic and ancillary services providers to ensure every member has access to covered services.

The travel distance and access standards that WellCare of North Carolina utilizes to monitor its network adequacy are in line with both state and federal regulations. For the standard specific to your specialty and county, please reach out to your Provider Services department.

Providers must offer and provide WellCare of North Carolina members appointments and wait times comparable to that offered and provided to other commercial members. WellCare of North Carolina routinely

monitors compliance with this requirement and may initiate corrective action, including suspension or termination, if there is a failure to comply with this requirement.

COVERING PROVIDERS

PCPs and specialist providers must arrange for coverage with another provider during scheduled or unscheduled time off. In the event of unscheduled time off, the provider must notify the Provider Services department of coverage arrangements as soon as possible. For scheduled time off, the provider must notify the Provider Services department prior to the scheduled time off. The provider who engaged the covering provider must ensure that the covering physician has agreed to be compensated in accordance with the WellCare of North Carolina fee schedule in such provider's agreement.

Provider Phone Call Protocol

PCPs and specialist providers **must**:

- Answer the member's telephone inquiries on a timely basis
- Schedule appointments in accordance with appointment standards and guidelines set forth in this manual
- Schedule a series of appointments and follow-up appointments as appropriate for the member and in accordance with accepted practices for timely occurrence of follow-up appointments for all patients
- Identify and, when possible, reschedule cancelled and no-show appointments
- Identify special member needs while scheduling an appointment (e.g., wheelchair and interpretive linguistic needs, non-compliant individuals, or persons with cognitive impairments)
- Adhere to the following response times for telephone call-back wait times:
 - After hours for non-emergent, symptomatic issues: within 30 minutes
 - Same day for all other calls during normal office hours
- Schedule continuous availability and accessibility of professional, allied, and supportive personnel to provide covered services within normal office hours
- Have protocols in place to provide coverage in the event of a provider's absence
- Document after-hours calls in a written format in either in the member's medical record or an after-hours call log and then transfer to the member's medical record

NOTE: If after-hours urgent or emergent care is needed, the PCP, specialist provider, or their designee should contact the urgent care center or emergency department to notify the facility of the patient's impending arrival. WellCare of North Carolina does not require prior authorization for emergent care.

WellCare of North Carolina will monitor appointment and after-hours availability on an on-going basis through its Quality Improvement Program (QIP).

Provider Data Updates and Validation

WellCare of North Carolina will ensure that our systems are updated quickly to provide the most current information to our members.

Additionally, WellCare of North Carolina, and our contracted vendors, perform regular audits of our provider directories. This may be done through outreach to confirm your practice information. Access to care is critical to ensuring the health and well-being of our members, and to provide reliable access to care, it is important to respond to the outreach. Without a response, we are unable to accurately make your information available to patients and you may be at risk of being removed from the WellCare of North Carolina Provider Directory.

We need your support and participation in these efforts. CMS may also be auditing provider directories throughout the year, and you may be contacted by them as well. Please be sure to notify your office staff so that they may route these inquiries appropriately.

24-Hour Access to Providers

PCPs and specialist providers are required to maintain sufficient access to needed health care services on an ongoing basis and must ensure that such services are accessible to members as needed 24 hours a day, 365 days a year as follows:

- A provider's office phone must be answered during normal business hours; and
- A member must be able to access their provider after normal business hours and on weekends; this may be accomplished through the following:
 - A covering physician;
 - An answering service;
 - A triage service or voicemail message that provides a second phone number that is answered; or
 - If the provider's practice includes a high population of Spanish speaking members, it is recommended that the message be recorded in both English and Spanish.
- Examples of unacceptable after-hours coverage include, but are not limited to:
 - Calls received after-hours are answered by a recording telling callers to leave a message;
 - Calls received after-hours are answered by a recording directing patients to go to an emergency room for any services needed; or
 - Not returning calls or responding to messages left by patients' after-hours within 30 minutes.

The selected method of 24-hour coverage chosen by the provider must connect the caller to someone who can render a clinical decision or reach the PCP or specialist provider for a clinical decision. Whenever possible, PCP, specialist providers, or a covering professional must return the call within 30 minutes of the initial contact. After-hours coverage must be accessible using the medical office's daytime telephone number.

WellCare of North Carolina will monitor provider's compliance with this provision through scheduled and unscheduled visits and audits conducted by WellCare of North Carolina staff.

Hospital Responsibilities

WellCare of North Carolina has established a comprehensive network of hospitals to provide services to members. Hospital services and hospital-based providers must be qualified to provide services under the program. All services must be provided in accordance with applicable state and federal laws and regulations and adhere to the requirements set forth by accrediting agencies, if any, and WellCare of North Carolina.

Hospitals must:

- Notify the PCP immediately or no later than the close of the next business day after the member's emergency room visit;
- Obtain authorizations for all inpatient and selected outpatient services listed in the Pre-Auth Needed tool available at marketplace.wellcarenc.com, except for emergency stabilization services;
- Notify the Medical Management department by either calling or sending an electronic file of the ER admission within one business day; the information required includes the member's name, member ID, presenting symptoms/diagnosis, date of service, and member's phone number;
- Notify the Medical Management department of all admissions via the ER within one business day;
- Notify the Medical Management department of all newborn deliveries within one day of the delivery; notification may occur by our Secure Provider Portal, fax, or by phone; and
- Adhere to the standards set in the Timeframes for Prior Authorization Requests and Notifications table in the Medical Management section of this manual.

WELLCARE OF NORTH CAROLINA BENEFITS

Overview

There are many factors that determine which plan a WellCare of North Carolina member will be enrolled in. The plans vary based on the individual liability limits, including their deductibles, maximum out-of-pocket responsibilities, and/or cost share (copay and/or coinsurance) expenses for benefits to the member. The phrase “Metal Tiers” is used to categorize these levels.

Under the Affordable Care Act (ACA), the Metal Tiers include Platinum, Gold, Silver, and Bronze. Essential Health Benefits (EHBs) are the same within every plan. This means that every health plan will cover the minimum, comprehensive benefits as outlined in the Affordable Care Act, and in line with all applicable state regulations.

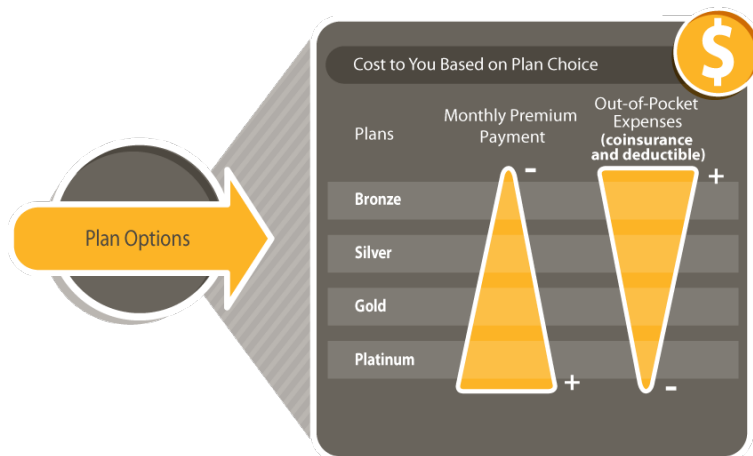

The EHBs outlined in the Affordable Care Act are as follows:

- Preventive and wellness services and chronic disease management
- Maternity and newborn care
- Pediatric services including pediatric vision
- Outpatient or ambulatory services
- Laboratory services
- Various therapies (such as physical therapy and devices)
- Hospitalization
- Emergency services
- Mental health and substance use services, both inpatient and outpatient
- Prescription drugs

WellCare of North Carolina covers services described in the Schedule of Benefits and Evidence of Coverage (EOC) document for each WellCare of North Carolina plan type. If there are questions as to a covered service or required prior authorization, please contact WellCare of North Carolina Provider Services at 1-833-925-2861. Prior authorization criteria and a quick check tool are also available on our website.

Detailed information about benefits and services can be found in the current year EOC available at marketplace.wellcarenc.com on the “Our Health Plans” page.

Each plan offered on the Health Insurance Marketplace will be categorized within one of these “Metal Tiers.” The tiers are based on the amount of member liability. For instance, at a gold level, a member will pay higher premiums but will have lower out-of-pocket costs, like copays. Below is a basic depiction of how the cost levels are determined within each plan.

Our products are marketed under the following names:

Metal Tier	Marketing Name
Gold	WellCare of North Carolina Secure Care
Silver	WellCare of North Carolina Balanced Care
Bronze	WellCare of North Carolina Essential Care

Additional Benefit Information

WellCare of North Carolina has a variety of PPO, HMO, and EPO benefit plans offerings based on geographic location. Depending on the benefit plan and any subsidies that the member may receive, plans contain copays, coinsurance, and deductibles (cost shares). As stated elsewhere in this manual, cost shares may be collected at the time of service. Review the “Verifying Member Benefits, Eligibility, and Cost Shares” section of this manual to determine if the WellCare of North Carolina Member has an HMO, EPO, or PPO plan and their associated cost share for services.

PPO

To receive the highest level of benefits at the lowest cost share amounts, members who are enrolled with WellCare of North Carolina PPO plans are incented to utilize in-network participating providers. If a member receives care from an out-of-network provider, they will receive benefit and they can be balanced bill for additional charges above what has been reimbursed from the health plan. Members and providers can identify participating providers by visiting our website at marketplace.wellcarenc.com and clicking on [Find-A-Provider](#).

HMO

Members who are enrolled in HMO plans with WellCare of North Carolina must utilize in-network participating providers. Members and providers can identify other participating providers by visiting our website at marketplace.wellcarenc.com and clicking on [Find-A-Provider](#). When an out-of-network provider is utilized, except in the case of emergency services, the member will be 100% responsible for all charges.

Integrated Deductible Products

Some WellCare of North Carolina products contain an integrated deductible, meaning that the medical and prescription deductible are combined. In such plans,

- A member will reach the deductible first, then pay coinsurance until they reach the maximum out-of-pocket for their plan
- Most copays will be collected before the deductible for services that are not subject to the deductible
- Other copays are subject to the deductible, and the copay will be collected only after the deductible is met
- Services counting towards the integrated deductible include medical costs, physician services, hospital services, essential health benefit covered services including pediatric vision, mental health services, and pharmacy benefits
- Claims information including the accumulators will be displayed on the Secure Provider Portal

Non- Integrated Deductible Products

Some WellCare of North Carolina products contain a non-integrated deductible, meaning that the medical and prescription deductible are not combined. In such plans:

- A member will reach the medical deductible separately from the prescription deductible, then pay cost share (either copay or coinsurance) until they reach the maximum out-of-pocket for their plan
- Copays will be collected before the deductible for services that are not subject to the deductible
- Other copays are subject to the deductible, and the copay will be collected only after the deductible is met
- Services that will not count towards the non-integrated prescription deductible include medical costs, physician services, hospital services, essential health benefit covered services including pediatric vision and mental health services, and any other medical benefits
- Only claims for pharmacy benefits will count towards the non-integrated prescription deductible
- Claims information including the accumulators will be displayed on the Secure Provider Portal

Maximum Out-of-pocket Expenses

All WellCare of North Carolina benefit plans contain a maximum out-of-pocket expense. Maximum out-of-pocket is the highest or total amount that must be paid by the member toward the cost of their health care (excluding premium payments). Maximum out-of-pocket costs can be determined on the Member's Schedule of Benefits document available through marketplace.wellcarenc.com on the "Our Health Plans" page. Below are some rules regarding maximum out-of-pocket expenses:

- A member will reach the deductible first and will continue to pay coinsurance/copay then pay coinsurance until they reach the maximum out-of-pocket for their WellCare of North Carolina benefit plan.
- Copays or coinsurance will be collected before and after the deductible is met; or until the maximum out-of-pocket is met.

- Only medical costs/claims are applied to the deductible. (For those benefit plans that contain routine adult vision and routine dental coverage, these expenses would not count towards the deductible).
- All out-of-pocket costs, including copays, deductibles, and coinsurance apply to the maximum out-of-pocket. (As mentioned previously, this excludes premium payments).
- WellCare of North Carolina will continue to pay claims and provide 100% of contracted payment after the member/family policy has met their maximum out-of-pocket costs.

COVERED SERVICES

Please visit the WellCare of North Carolina website for information on services, the member’s coverage status and other information about obtaining services. Please refer to our website and the “Medical Management & Prior Authorization” section of this manual for more information about clinical determination and prior authorization procedures.

Benefit Limits

In general, most benefit limits for services and procedures follow state and federal guidelines. Benefits limited to a certain number of visits per year are based on a calendar year (January through December). Please check to be sure the member has not already exhausted benefit limits before providing services by checking our Secure Provider Portal or calling WellCare of North Carolina Member and Provider Services.

Preventive Services

Preventive care services are covered in accordance with the Affordable Care Act (ACA). The ACA requires health plans (non-grandfathered) to cover certain identified services under the preventive care benefit without cost sharing to members (copayments, coinsurance amounts, and deductibles do not apply), when obtained from an in-network provider. ACA required preventive care coverage includes:

- Evidence-based items or services that have in effect a rating of “A” or “B” in the current recommendations of the United States Preventive Services Task Force (USPSTF).
- Immunizations for routine use in children, adolescents and adults that have in effect a recommendation from the Advisory Committee on Immunization Practices (ACIP) of the Centers for Disease Control and Prevention (CDC).
- With respect to infants, children and adolescents, evidence-informed preventive care and screenings provided for in the comprehensive guidelines supported by the Health Resources and Services Administration (HRSA).
- With respect to women, such additional preventive care and screenings as provided for in comprehensive guidelines supported by the Health Resources and Services Administration (HRSA).

NOTE: The complete list of recommendations and guidelines can be found at <https://www.healthcare.gov/preventive-care-benefits>

Preventive benefits do not generally include services intended to treat an existing illness, injury, or condition. Benefits will be determined based on how the bill is submitted. Claims must be submitted with the appropriate diagnosis and/or procedure code to be paid at the 100% benefit level. If during a preventive care visit a member receives services to treat an existing illness, injury, or condition, he/she may be required to pay a copayment, deductible and/or coinsurance for those covered non-preventive services.

For a listing of services that are covered at 100% and associated preventative benefits, please visit marketplace.wellcarenc.com.

Notification of Pregnancy

Providers should notify WellCare of North Carolina/Marketplace/SBEs immediately of any member who are expecting. We do not require that a physician or other healthcare provider obtain prior authorization for the delivery of the newborn. However, an inpatient stay longer than 48 hours for a vaginal delivery or 96 hours for a cesarean delivery will require prior authorization. Please refer to the provider authorization tool marketplace.wellcarenc.com to check if any authorizations are required for additional services.

This notification of pregnancy allows WellCare of North Carolina members to take advantage of the Start Smart for your Baby Program that provides education and care management techniques. The program offers support for pregnant women and their babies through the first year of life by providing educational materials as well as incentives for going to prenatal, postpartum, and well child visits.

Tribal Provider (AIAN) American Indian Alaska Native

For Indian Health Services (I.H.S) and Tribal 638 facilities, most services are paid at the Office of Management and Budget (OMB) Rate, using the UB claim form and either a revenue code for dental clinic (0512) or for physical health clinic (0519). For a Behavioral Health practitioner service revenue code 0919 is used. Some services are not part of the Office of Management Budget rate and are billed on the CMS 1500 form and paid at regular fee schedule rates. Note: Dental claims are not a covered service unless related to an emergency.

WellCare of North Carolina American Indian and Alaska Natives members may use an Indian health care as a primary care provider or choose to use a network primary care provider to get health care services. To avoid paying extra, member must obtain a referral from their Indian health care provider or from the network primary care provider for any specialty or other services not provided by your Indian health care provider.

WellCare of North Carolina claims billed by a network primary care provider or specialist on behalf of an American Indian and Alaska Native member are required to bill with modifier Q4 to indicate that these services are an extension of services not provided by an Indian health care provider but billed by a network primary care provider or specialist.

WellCare of North Carolina requires that all other Non-Indian Health Services (I.H.S.) or Tribal providers billing on CMS 1500 forms be billed with a place of service as recognized by CMS, www.cms.gov/Medicare/Coding, indicated below:

- 05 Indian Health Service Free-Standing Facility. (A facility or location, owned and operated by the Indian Health Service, which provides diagnostic, therapeutic (surgical and non-surgical), and rehabilitation services to American Indians and Alaska Natives who do not require hospitalization. (Effective January 1, 2003).
- 06 Indian Health Service Provider-Based Facility. Importance of Verifying Benefits, Eligibility, and Cost Shares

Benefit Design

As mentioned previously in the Benefits section of this Manual, there are variations on the product benefits and design. To accurately collect member cost shares (coinsurance, copays, and deductibles), you must know the benefit design. A member cost-sharing level and copayment is based on the member’s health plan. You can collect the copayment amounts from the member at the time of service. The Secure Provider Portal found at marketplace.wellcarenc.com will provide the information needed.

Premium Grace Period for Members Receiving Advanced Premium Tax Credits (APTCs)

A provision of the Affordable Care Act requires that WellCare of North Carolina allow members receiving Advance Premium Tax Credit’s (APTC) a three-month grace period to pay premiums before coverage is terminated.

Members for whom WellCare of North Carolina is not receiving an (APTC) will have a grace period of 30 days.

When providers are verifying eligibility through the Secure Provider Portal during the first month of grace period, the provider will receive a message that the member is delinquent due to nonpayment of premium; however, claims may be submitted and will be paid during the first month of the grace period. During months two and three of the grace period, the provider will receive a message that the member is in a suspended status. If payment of all premiums due is not received from the member at the end of the grace period, the member policy will automatically terminate to the last date through which premium was paid. The member shall be held liable for the cost of Covered Services received during the grace period, as well as any unpaid premium. In no event shall the grace period extend beyond the date the member policy terminates. More discussion regarding the three-month grace period for non-payment of premium may be found in the “Billing the Member” section of this manual.

MEDICAL MANAGEMENT

The components of the WellCare of North Carolina Medical Management program are Utilization Management, Care Management and Concurrent Review, Health Management and Behavioral Health. These components will be discussed in detail below.

Care Management

Care Management is a collaborative process which assesses, plans, implements, coordinates, monitors, and evaluates options and services to meet an individual's health needs, using communication and available resources to promote quality, cost effective outcomes. Service/Care Coordination and Care Management is member-centered, goal-oriented, culturally relevant, and logically managed processes to help ensure that a member receives needed services in a supportive, effective, efficient, timely, and cost-effective manner.

WellCare of North Carolina's Care Management teams support physicians by tracking compliance with the Care Management plan and facilitating communication between the PCP, member, managing physician, and the Care Management team. The Care Manager also facilitates referrals and links to community providers, such as behavioral health providers, local health departments and school-based clinics. Start Smart for Your Baby[®] (Start Smart) is a Care Management program available to members who are pregnant or who have just had a baby. Start Smart is a comprehensive program that covers all phases of the pregnancy, postpartum, and newborn periods including perinatal and postnatal depression. The program includes mailed educational materials for newly identified pregnant members and new mothers after delivery. Telephonic Care Management by registered nurses, licensed mental health professionals and social services specialists as well as Marketplace Coordinators is available. WellCare of North Carolina's Care Managers work with the member to create a customizable plan of care to promote healthcare as well as adherence to Care Management plans. Care Managers will coordinate with physicians, as needed, to develop and maintain a plan of care to meet the needs of all involved.

All WellCare of North Carolina members with identified needs are assessed for Care Management enrollment. Members with needs may be identified via clinical rounds, referrals from other WellCare of North Carolina staff

Utilization Management

The WellCare of North Carolina Utilization Management initiatives are focused on optimizing each member’s health status, sense of well-being, productivity, and access to appropriate health care while at the same time actively managing cost trends. The Utilization Management Program’s goals are to provide covered services that are medically necessary, appropriate to the member’s condition, rendered in the appropriate setting, and meet professionally recognized standards of care. WellCare of North Carolina does not reward providers, employees who perform utilization reviews, or other individuals for issuing denials of authorization. Neither network inclusion nor hiring and firing practices influence the likelihood or perceived likelihood for an individual to deny or approve coverage. There are no financial incentives to deny care or encourage decisions that result in underutilization.

Prior authorization or Prospective Review is the request to the Utilization Management Department for approval of certain services before the service is rendered. Authorization must be obtained prior to the delivery of certain elective and scheduled services. Failure to obtain authorization will result in denial of coverage.

Medically Necessary

Medically Necessary means any medical service, supply, or treatment authorized by a physician to diagnose and treat a member’s illness or injury which:

- Is consistent with the symptoms or diagnosis;
- Is provided according to generally accepted medical practice standards;
- Is not custodial care;
- Is not solely for the convenience of the physician or the member;
- Is not experimental or investigational;

² ***My Health Pays™ rewards cannot be used for pharmacy copays.

- Is provided in the most cost-effective care facility or setting;
- Does not exceed the scope, duration, or intensity of that level of care that is needed to provide safe, adequate, and appropriate diagnosis or treatment; and
- When specifically applied to a hospital confinement, it means that the diagnosis and treatment of the medical symptoms or conditions cannot be safely provided as an outpatient.

The WellCare of North Carolina Medical Management Department will concurrently review the treatment and status of all members who are inpatient through contact with the hospital's Utilization and Discharge Planning Departments and when necessary, the member's attending physician. An inpatient stay will be reviewed as indicated by the member's diagnosis and response to treatment. The review will include evaluation of the member's status, proposed plan of care, discharge plans, and subsequent diagnostic testing or procedures.

PRIOR AUTHORIZATIONS

Services Requiring Prior Authorization

To verify if a service requires prior authorization, please visit the WellCare of North Carolina website at marketplace.wellcarenc.com and use the “Pre-Auth Needed” tool under For Providers – Provider Resources or call the Utilization Management Department with questions. Any anesthesiology, pathology, radiology, or hospitalist services related to a procedure or hospital stay requiring a prior authorization will be considered downstream and will not require a separate prior authorization.

Services related to an authorization denial will result in denial of all associated claims.

Advanced Diagnostic Imaging

As part of a continued commitment to further improve advanced imaging and radiology services, WellCare of North Carolina is using NIA to provide prior authorization services and utilization management for advanced imaging and radiology services. NIA focuses on radiation awareness designed to assist providers in managing imaging services in the safest and most effective way possible.

Prior authorization is required for the following outpatient radiology procedures:

- CT /CTA/CCTA,
- MRI/MRA, and
- PET.

Key Provisions:

- Emergency room, observation, and inpatient imaging procedures do not require authorization;
- It is the responsibility of the ordering physician to obtain authorization; and
- Providers rendering the above services should verify that the necessary authorization has been obtained; failure to do so may result in denial of all or a portion of the claim.

To reach NIA and obtain authorization, please call 1-800-642-7339 and follow the prompt for radiology authorizations. NIA also provides an interactive website which may be used to obtain on-line authorizations. Cardiac Solutions

WellCare of North Carolina in collaboration with NIA Magellan, will launch a cardiac imaging program to promote health care quality for patients with possible cardiac disease.

Under this program, prior authorization will be required for certain cardiac studies to determine if the cardiac test or procedure is the most appropriate next step in a patient’s diagnosis or treatment—and to recommend an alternate approach when indicated. By supporting the most efficient diagnosis and management of cardiac disease, NIA Magellan addresses unnecessary procedures and promotes the least invasive, most medically appropriate approach.

NIA Magellan has developed proprietary utilization management guidelines for these cardiac modalities. These consensus-based guidelines draw on current literature, American College of Cardiology (ACC) appropriateness

criteria, recommendations from the American Heart Association, and input from our Cardiac Advisory Board and other experts. Our guidelines are transparent and available throughout our programs. NIA Magellan also includes references to the Choosing Wisely campaign by the American Board of Internal Medicine (ABIM) Foundation, which provides specialty society considerations for the selection of appropriate tests.

How does this program improve patient health?

Managing cardiac studies will promote the use of optimal diagnostic methods in the assessment and treatment of cardiac diseases. Based on criteria adapted from the ACC and AMA, this program will minimize patients' radiation exposure by using the most efficient and least invasive testing options available.

Program Components

- Evidence-based clinical guidelines and proprietary algorithms to support clinically appropriate diagnostic options for each patient
- Consultations with cardiologists related to elective cardiac diagnostic imaging, when needed
- Quality assessment of imaging providers to ensure the highest technical and professional standards

How the Program Works

In addition to the other procedures that currently require prior authorization for members, prior authorization will be required for the following cardiac procedures:

- Myocardial Perfusion Imaging (MPI)
- MUGA Scan
- Echocardiography
- Stress Echocardiography

The following services do not require authorization through NIA Magellan:

- Inpatient advanced radiology services
- Observation setting advanced radiology services
- Emergency Room radiology services

To reach NIA and obtain authorization, please call 1-800-642-7339 and follow the prompt for radiology and cardiac authorizations. NIA also provides an interactive website which may be used to obtain on-line authorizations. Please visit [RadMD.com](https://www.radmd.com) for more information.

Habilitation, Rehabilitation Services & Pain Management

As part of a continued commitment to further improve habilitation and rehabilitation services, WellCare of North Carolina is using National Imaging Associates (NIA) to provide prior authorization services and utilization management for therapy services. NIA focuses on assisting providers in managing habilitation, rehabilitation, and pain management services in the most effective way possible.

Prior authorization is required for the following home, inpatient, and outpatient therapy procedures:

- Physical Therapy, Occupational Therapy, Speech Therapy
- Chiropractic & Acupuncture
- Cardiac Therapy & Pulmonary Therapy
- Pain Management

Key Provisions:

- It is the responsibility of the **ordering** physician to obtain authorization; and
- Providers rendering the above services should verify that the necessary authorization has been obtained; failure to do so may result in denial of all or a portion of the claim.

How the Program Works

Outpatient physical, occupational and speech therapy requests are reviewed by NIA's peer consultants to determine whether the services meet policy criteria for medically necessary and appropriate care. The medical necessity determinations are based on a review of objective, contemporaneous, and clearly documented clinical records that may be requested to help support the appropriateness of care. Clinical review helps determine whether such services are both medically necessary and eligible for coverage. Although prior authorization for the therapy evaluation alone is not required, additional services provided at the time of the evaluation and for any ongoing care is required through NIA. There is no need to send patient records in advance. NIA will contact the provider via phone and fax if additional clinical information is needed to complete the request. If the clinical documentation fails to establish that care is medically necessary, is not received, or is not received in an appropriate amount of time, it may result in non-certification of the authorization request.

Under terms of the agreement between WellCare of North Carolina and NIA, WellCare of North Carolina oversees the NIA Therapy Management program and continues to be responsible for claims adjudication. If NIA therapy peer reviewers determine that the care provided fails to meet our criteria for covered therapy services, you and the patient will receive notice of the coverage decision.

Should you have questions, please contact WellCare of North Carolina Provider Services at 1-833-925-2861.

Second Opinion

Members or a healthcare professional with the member's consent may request and receive a second opinion from a qualified professional within the WellCare of North Carolina network. If there is not an appropriate provider to render the second opinion within the network, the member may obtain the second opinion from an out of network provider only upon receiving a prior authorization from the WellCare of North Carolina Utilization Management Department.

Preventive Health Care

WellCare of North Carolina is committed to the promotion of the lifelong benefits of preventive care. Members may see a network provider, who is contracted with WellCare of North Carolina to provide health care services directly, without prior authorization for:

- Medically necessary maternity care;
- Preventive care (well care) and general examinations;
- Gynecological care; or
- Follow-up visits for the above services.

If the member's health care provider diagnoses a condition that requires a prior authorization to other specialists or hospitalization, prior authorization must be obtained in accordance with WellCare of North Carolina's prior authorization requirements.

Retrospective Review

Retrospective review is an initial review of services after services have been provided to a member. This may occur when authorization or timely notification to WellCare of North Carolina was not obtained due to extenuating circumstances (i.e., member was unconscious at presentation, member did not have their WellCare of North Carolina ID card or otherwise indicated other coverage, services authorized by another payer who subsequently determined member was not eligible at the time of service). Requests for retrospective review must be submitted promptly.

If a claim is denied for lack of authorization for a service that requires authorization, WellCare will not retrospectively review the request for authorization, as this type of request does not meet the WellCare retrospective review guidelines of extenuating circumstances. If a clinical review is warranted due to extenuating circumstances, a decision will be made within 30 calendar days following receipt of all necessary information.

Emergency Care

Emergency care means medical services provided after the sudden or unexpected onset of a medical condition manifesting itself by acute symptoms, including injury caused by an accident, which are severe enough that the lack of immediate medical attention could reasonably be expected to result in any of the following:

- The patient's life or health would be placed in serious jeopardy;
- Vital bodily functions would be seriously impaired; and
- There would be serious and permanent dysfunction of a bodily organ or part.

PHARMACY

The pharmacy benefits for WellCare of North Carolina members vary based on the plan benefits. Information regarding the member's pharmacy coverage can be best found via our Secure Provider Portal. Additional

resources available on the website include the WellCare of North Carolina Formulary, the Envolve Pharmacy Solutions (Pharmacy Benefit Manager) Provider Manual, and Medication Request/Exception Request forms.

The WellCare of North Carolina formulary is designed to assist contracted healthcare prescribers with selecting the most clinically and cost-effective medications available. The formulary provides instruction on the following:

- Which drugs are covered, including restrictions, prior authorization requirements, and limitations;
- The pharmacy management program requirements and procedures;
- An explanation of limits and quotas;
- How prescribing providers can make an exception request; and;
- How WellCare of North Carolina conducts generic substitution, therapeutic interchange, and step-therapy.

The WellCare of North Carolina formulary does not:

- Require or prohibit the prescribing or dispensing of any medication;
- Substitute for the professional judgment of the physician or pharmacist; or
- Relieve the physician or pharmacist of any obligation to the member.

The WellCare of North Carolina formulary will be approved initially by the Pharmacy and Therapeutics Committee (P&T), led by the Pharmacist and Medical Director, with support from community-based primary care providers and specialists. Once established, the Formulary will be maintained by the P & T Committee, through quarterly meetings, to ensure WellCare of North Carolina members receive the most appropriate medications. The WellCare of North Carolina formulary contains those medications that the P & T Committee has chosen based on their safety and effectiveness. If a physician feels that a certain medication merits addition to the list, the Formulary Change Request policy can be used as a method to address the request. The P & T Committee reviews the request, along with supporting clinical data, to determine if the drug meets the safety and efficacy standards established by the Committee. Copies of the formulary are available on our website, marketplace.wellcarenc.com. Providers may also call Provider Services at 1-833-925-2861 for hard copies of the pharmaceutical management procedures formulary to be sent by mail, fax, or email.

Envolve Pharmacy Solutions is simplifying the prescriber process with a streamlined prior authorization process that can be accessed online through CoverMyMeds. CoverMyMeds automates drug prior authorizations for any medication and allows prescribers to begin the process electronically. This site can be accessed at <https://pharmacy.envolvehealth.com/pharmacists.html> under the “CoverMyMeds” link.

Utilization Review Criteria

Utilization management decision-making is based on appropriateness of care and service and the existence of coverage. WellCare of North Carolina does not reward providers or other individuals for issuing denials of authorizations.

WellCare of North Carolina has adopted the following utilization review criteria to determine whether services are medically necessary services for purposes of plan benefits:

Services	Criteria
Medical Services	InterQual® Adult, Clinical Policies and Pediatric Guidelines and internally developed criteria by WellCare of North Carolina health care professionals and related specialists.
Behavioral Health Services	InterQual® Behavioral Health Criteria (Adult and Geriatric or Child and Adolescent Psychiatry) and internally developed criteria by WellCare of North Carolina behavioral health care professionals and related specialists.
High Tech Imaging and Therapy Services	Internally developed criteria by National Imaging Associates (NIA). Criteria developed by representatives in the disciplines of radiology, internal medicine, nursing, and cardiology. The criteria are available at www.RadMD.com .
Substance Use Disorder Services	American Society for Addiction Medicine (ASAM) Patient Placement Criteria. The criteria are available at www.asam.org .

WellCare of North Carolina’s Medical Director, or other health care professionals who have appropriate clinical expertise in treating the member’s condition or disease, review all potential adverse determinations and will make a decision in accordance with currently accepted medical or health care practices, considering special circumstances of each case that may require deviation from InterQual® or other criteria as mentioned above. Providers may obtain the criteria used to make a specific adverse determination by contacting the Medical Management department at 1-833-925-2861. Providers can discuss any adverse decisions with a WellCare of North Carolina physician or other appropriate reviewer at the time of the notification to the requesting provider of an adverse determination. The Medical Director may be contacted by calling WellCare of North Carolina at 1-833-925-2861 and asking for the Medical Director. A WellCare of North Carolina Care Manager may also coordinate communication between the Medical Director and the requesting provider

Participants or healthcare professionals, with the Participant’s consent, may request an appeal related to a medical necessity decision made during the authorization or concurrent review process orally or in writing to:

CLAIMS

The appropriate Center for Medicare and Medicaid Services (CMS) billing form is required for paper and electronic data interchange (EDI) claim submissions. The appropriate CMS billing forms are CMS 1450 for facilities and CMS 1500 for professionals. In general, WellCare of North Carolina follows the CMS billing requirements for paper, EDI, and secure web-submitted claims. WellCare of North Carolina is required by state and federal regulations to capture specific data regarding services rendered to its members. The provider must adhere to all billing requirements to ensure timely processing of claims and to avoid unnecessary upfront rejections or denials. Reimbursement Policy can be viewed on our website and in the Appendix of this Manual.

Verification Procedures

All claims filed with WellCare of North Carolina are subject to verification procedures. These include, but are not limited to, verification of the following:

- All required fields are completed on an original CMS 1500 Claim Form, CMS 1450 (UB-04) Claim Form, EDI electronic claim format, or the claim is submitted on our Secure Provider Portal, individually or in a batch.

 - X12N 837 (5010 HIPAA version) loop 2400 REF segment with X4 qualifier, (both laboratory services for which CLIA certification is required and non-CLIA covered laboratory tests).

 - Date of Service

 - All inpatient facilities are required to submit a Present on Admission (POA) Indicator. Claims will be denied (or rejected) if the POA indicator is missing. Please reference the CMS Billing Guidelines regarding POA for more information and for excluded facility types. Valid 5010 POA codes are:

Clean Claim Definition

A clean claim means a claim for payment of health care expenses that is submitted on a CMS 1500, or a CMS 1450 (UB04) claim form, in a format required by the Health Insurance Portability and Accountability Act of 1996 (HIPAA) with all required fields completed in accordance with WellCare of North Carolina’s published claim filing requirements.

Non-Clean Claim Definition

A clean claim shall not include a claim:

- that contains invalid or missing data elements, a claim that has been suspended to get more information from the provider, or a claim that requires manual intervention/processing

- For which WellCare of North Carolina requires additional information to resolve the claim.

Upfront Rejections vs. Denials

Upfront Rejection

An upfront rejection is defined as an unclear claim that contains invalid or missing data elements required for acceptance of the claim into the claim processing system. These data elements are identified in the Companion Guide located in Appendix IX of this manual. A list of common upfront rejections is in Appendix I of this manual. Upfront rejections do not enter our claims adjudication system, so there is no Explanation of Payment (EOP) for these claims. The provider receives a letter or a rejection report if the claim is submitted electronically. If a claim is rejected, the identified issue must be corrected, and the claim resubmitted as an original claim.

Denial

If all edits pass and the claim is accepted, it is entered into the system for processing. A **denial** is defined as a claim that passes edits and is entered into the system but is billed with invalid or inappropriate information causing the claim to deny. In this case, an EOP is sent that includes the denial reason. A list of common delays and denials is found with explanations in Appendix II.

Timely Filing

Providers have the option of requesting future offsets to payments or may mail refunds and overpayments, along with supporting documentation for medical and behavioral health claims (copy of the remittance advice along with affected claims identified) to:

Who Can File Claims?

All providers who have rendered services for WellCare of North Carolina members can file claims. It is important that providers ensure WellCare of North Carolina has accurate and complete information on file. Please confirm with the Provider Services department or your dedicated Provider Relations Representative that the following information is current in our files:

1. Provider Name (as noted on current W-9 form);
2. National Provider Identifier (NPI);
3. Group National Provider Identifier (NPI) (if applicable);
4. Tax Identification Number (TIN);
5. Taxonomy code (This is a REQUIRED field when submitting a claim);
6. Physical location address (as noted on current W-9 form); and
7. Billing name and address (as noted on current W-9 form).

We recommend that providers notify WellCare of North Carolina 30-60 days in advance of changes pertaining to billing information. If the billing information change affects the address to which the end of year 1099 IRS form is mailed, a new W-9 form is required. Changes to a provider's TIN and/or address are NOT acceptable when conveyed via a claim form or a 277 electronic file.

Claims for billable services provided to WellCare of North Carolina members must be submitted by the provider who performed the services or by the provider's authorized billing vendor.

Electronic Claims Submission

Providers are encouraged to participate in WellCare of North Carolina's Electronic Claims/Encounter Filing Program through Centene. WellCare of North Carolina (Centene) has the capability to receive an ANSI X12N 837 professional, institutional, or encounter transaction. In addition, WellCare of North Carolina (Centene) has the capability to generate an ANSI X12N 835 electronic remittance advice known as an Explanation of Payment (EOP). For more information on electronic filing, contact:

WellCare of North Carolina c/o Centene EDI Department

1-800-225-2573, extension 6075525

Or by e-mail at EDIBA@centene.com

Providers who bill electronically are responsible for filing claims within the same filing deadlines as providers filing paper claims. Providers who bill electronically must monitor their error reports and evidence of payments to ensure all submitted claims and encounters appear on the reports. Providers are responsible for correcting any errors and resubmitting the affiliated claims and encounters.

WellCare of North Carolina can receive coordination of benefits (COB or secondary) claims electronically. WellCare of North Carolina follows the 5010 X12 HIPAA Companion Guides for requirements on submission of COB data.

The WellCare of North Carolina Payer ID is 68069. For a list of the clearinghouses that we currently work with, please visit our website at marketplace.wellcarenc.com.

Specific Data Record Requirements

Claims transmitted electronically must contain all the required data of the X12 5010 Companion Guides. Please contact the clearinghouse you intend to use and ask if they have additional data record requirements.

Electronic Claim Flow Description & Important General Information

To send claims electronically to WellCare of North Carolina, all EDI claims first must be forwarded to one of WellCare of North Carolina's clearinghouses. Complete this via a direct submission to a clearinghouse or through another EDI clearinghouse.

Once the clearinghouse receives the transmitted claims, they are validated against their proprietary specifications and plan-specific requirements. Claims not meeting the requirements are immediately rejected and sent back to the sender via a clearinghouse error report. It is very important to review this error report daily to identify any claims that were not transmitted to WellCare of North Carolina. The name of this report can vary based upon the provider's contract with their intermediate EDI clearinghouse. Accepted claims are passed to WellCare of North Carolina, and the clearinghouse returns an acceptance report to the sender immediately.

Claims forwarded to WellCare of North Carolina by a clearinghouse are validated against provider and member eligibility records. Claims that do not meet provider and/or member eligibility requirements are upfront rejected and sent back daily to the clearinghouse. The clearinghouse in turn forwards the upfront rejection back to its trading partner (the intermediate EDI clearinghouse or provider). It is very important to review this report daily. The report shows rejected claims; these claims must be reviewed and corrected timely. Claims passing eligibility requirements are then passed to the claim processing queues.

Providers are responsible for verification of EDI claims receipts. Acknowledgements for accepted or rejected claims received from the clearinghouse must be reviewed and validated against transmittal records daily.

Since the clearinghouse returns acceptance reports directly to the sender, submitted claims not accepted by the clearinghouse are not transmitted to WellCare of North Carolina.

If you would like assistance in resolving submission issues reflected on either the acceptance or claim status reports, please contact your clearinghouse or vendor Customer Service Department.

Rejected electronic claims may be resubmitted electronically once the error has been corrected. Be sure to submit the rejected claim as an original claim.

Invalid Electronic Claim Record Upfront Rejections/Denials

All claim records sent to WellCare of North Carolina first must pass the clearinghouse proprietary edits and plan specific edits prior to acceptance. Claim records that do not pass these edits are invalid and will be rejected without being recognized as received by WellCare of North Carolina. In these cases, the claim must be corrected and re-submitted within the required filing deadline as previously mentioned in the Timely Filing section of this manual. It is important that you review the acceptance or claim status reports received from the clearinghouse to identify and re-submit these claims accurately.

Questions regarding electronically submitted claims should be directed to our EDI BA Support at 1-800-225-2573 Ext. 6075525, or via e-mail at EDIBA@Centene.com. If you are prompted to leave a voice mail, you will receive a return call within 24 business hours.

- Claims for services requiring clinical review, e.g., complicated, or unusual procedure. Provider is required to submit medical records with the claim.
- Claim for services requiring documentation and a Certificate of Medical Necessity, e.g., oxygen, motorized wheelchairs.

WellCare of North Carolina encourages all providers to submit claims electronically. The Companion Guides for electronic billing are available on our websites. Paper submissions are subject to the same edits as electronic and web submissions.

All paper claims sent to the claim's office must first pass specific edits prior to acceptance. Claim records that do not pass these edits are invalid and will be rejected. If a paper claim has been rejected, the provider should correct the error and resubmit the paper claim as an original claim. If the paper claim passes the specific edits and is denied after acceptance, the provider should submit the denial letter with the corrected claim.

Acceptable Forms

WellCare of North Carolina only accepts the CMS 1500 (02/12) and CMS 1450 (UB-04) paper claim forms. Other claim form types will be upfront rejected and returned to the provider.

Professional providers and medical suppliers complete the CMS 1500 (02/12) Claim Form and institutional providers complete the CMS 1450 (UB-04) Claim Form. WellCare of North Carolina does not supply claim forms to providers. Providers should purchase these from a supplier of their choice. All paper claim forms must be typed with either 10- or 12-point Times New Roman font and on the required original red and white version to ensure clean acceptance and processing. Black and white forms, handwritten forms and nonstandard will be upfront rejected and returned to provider. To reduce document handling time, do not use highlights, italics, bold text, or staples for multiple page submissions. If you have questions regarding what type of form to complete, contact Provider Services.

Important Steps to Successful Submission of Paper Claims

1. Providers must file claims using standard claims forms (CMS 1450 (UB-04) for hospitals and facilities; CMS 1500 for physicians or practitioners).
2. Complete all required fields on an original, red CMS 1500 (Version 02/12) or CMS 1450 (UB-04) Claim Form. NOTE: Non-red, nonstandard, and handwritten claim forms will be rejected back to the provider.
3. Enter the provider's NPI number in the "Rendering Provider ID#" section of the CMS 1500 form (see box 24J).
4. Providers must include their taxonomy code (e.g., 207Q00000X for Family Practice) and corresponding ID qualifier in this section for correct processing of claims.
5. Ensure all Diagnosis Codes, Procedure Codes, Modifier, Location (Place of Service); Type of Bill, Type of Admission, and Source of Admission Codes are valid for the date of service. Refer to WellCare of North Carolina Taxonomy (PDF) located on our website marketplace.wellcarenc.com.
6. Ensure all Diagnosis and Procedure Codes are appropriate for the age of sex of the member.
7. Ensure all Diagnosis Codes are coded to their highest number of digits available.
8. Ensure member is eligible for services during the time in which services were provided.
9. Ensure provider receives authorization to provide services to the eligible member, when appropriate.
10. Ensure an authorization is given for services that require prior authorization by WellCare of North Carolina.

11. A provider billing CLIA services on a CMS 1500 paper form must enter the CLIA number in Box 23 of the CMS 1500 form.
12. Ensure all paper claim forms are typed or printed with either 10- or 12-point Times New Roman font. Do not use highlights, italics, bold text, ink stamps, or staples for multiple page submissions.
13. Ensure print is properly aligned on the form. WellCare of North Carolina utilizes OCR software to convert paper forms to EDI transactions and improperly aligned information may not process correctly and result in a rejected claim.

Claims missing the necessary requirements are not considered “clean claims” and will be returned to providers with a written notice describing the reason for return.

Corrected Claims, Requests for Reconsideration or Claim Disputes

All requests for corrected claims, reconsiderations, or claim disputes must be received within 180 days from the date of the original explanation of payment or denial. Prior processing will be upheld for corrected claims or provider claims requests for reconsideration or disputes/appeals received outside of the 180-day timeframe, unless a qualifying circumstance is offered, and appropriate documentation is provided to support the qualifying circumstance. Qualifying circumstances include:

1. A catastrophic event that substantially interferes with normal business operation of the provider, or damage or destruction of the provider’s business office or records by a natural disaster, mechanical, administrative delays, or errors by WellCare of North Carolina or the Federal and/or State regulatory body.
2. The member was eligible; however, the provider was unaware that the member was eligible for services at the time services were rendered. Consideration is granted in this situation only if all the following conditions are met:
 - The provider’s records document that the member refused or was physically unable to provide their ID Card or information;
 - The provider can substantiate that they continually pursued reimbursement from the patient until eligibility was discovered; and
 - The provider has not filed a claim for this member prior to the filing of the claim under review.

Relevant Claim Definitions

- **Corrected claim** – A provider is *changing* the original claim.
- **Request for reconsideration** – A provider disagrees with the original claim outcome (payment amount, denial reason, etc.).
- **Claim dispute/appeal** – A provider disagrees with the outcome of the request for reconsideration.

Corrected Claims

Corrected claims must clearly indicate they are corrected in one of the following ways:

1. Submit a corrected claim via the Secure Provider Portal. Follow the instructions on the portal for submitting a correction.
2. Submit a corrected claim electronically via a clearinghouse.
 - Institutional Claims (UB): Field CLM05-3=7 and Ref*8 = **Original Claim Number**
 - Professional Claims (CMS): Field CLM05-3=7 and REF*8 = **Original Claim Number**
3. Submit a corrected paper claim to:

WellCare of North Carolina
Attn: Claims Department
P.O. Box 5010
Farmington, MO 63640-5010

- Upon submission of a corrected paper claim, the original claim number must be **typed** in field 22 (CMS 1500) and in field 64 CMS 1450 (UB-04) with the corresponding frequency codes in field 22 of the CMS 1500 and in field 4 of the CMS 1450 (UB-04) form.
- Corrected claims must be submitted on standard r WellCare of North Carolina
-
- Attn: Request of Reconsideration
-
- P.O. Box 5010 Farmington, MO 63640-5010 ed and white forms. Handwritten corrected claims will be upfront rejected.

Request for Reconsideration

A request for reconsideration is a communication from the provider about a disagreement with the way a claim was processed. Generally, medical records are not required for a request for reconsideration. However, if the request for reconsideration is related to a code audit, code edit, or authorization denial, medical records **must accompany** the request for reconsideration. If the medical records are not received, the original denial will be upheld.

Reconsiderations may be submitted in the following ways:

1. Providers may elect to call to Provider Services. This method is for requests for reconsideration that do not require submission of supporting or additional information. An example of this is when a provider believes a particular service should be reimbursed at a particular rate, but the payment amount did not reflect that rate.
2. Providers may use the Request for Reconsideration form found on our website (preferred method).
3. Providers may send a written letter that includes a detailed description of the reason for the request. To ensure timely processing, the letter must include sufficient identifying information, which includes, at a minimum, the member's name, member ID number, date of service, total charges, provider name, original EOP, and/or the original claim number found in box 22 on a CMS 1500 form or field 64

on a CMS 1450 (UB-04 form). The corresponding frequency code should also be included with the original claim number (7 = replacement or corrected; 8 = voided or cancelled) in field 22 of the CMS 1500 and in field 4 of the CMS 1450 (UB-04) form.

4. It is not necessary to attach a copy of the submitted claim.

Written requests for reconsideration and any applicable attachments must be mailed to:

WellCare of North Carolina
Attn: Request for Reconsideration
P.O. Box 31370 Tampa, FL 33631-3370

When the request for reconsideration results in an overturn of the original decision, the provider will receive a revised EOP.

Claim Dispute

A claim dispute/claim appeal should be used only when a provider has received an unsatisfactory response to a request for reconsideration. If a dispute form is submitted and a reconsideration request is not located in our system, this will be considered a reconsideration and treated as outlined above.

A claim dispute/appeal must be submitted on a claim dispute/appeal form found on our website. The claim dispute form must be completed in its entirety. Mail completed claim dispute/appeal forms to:

WellCare of North Carolina
Attn: Claim Dispute
P.O. Box 31370 Tampa, FL 33631-3370

A claim dispute/appeal will be resolved within 30 calendar days. The provider will receive a written letter detailing the decision to overturn or uphold the original decision. If the original decision is upheld, the letter will include the rationale for upholding the decision. Disputed claims are resolved to a paid or denied status in accordance with state law and regulation.

Risk Adjustment and Correct Coding

Risk adjustment is a critical element of the Affordable Care Act (ACA) that will help ensure the long-term success of the Health Insurance Marketplace. Accurate risk adjustment calculation requires accuracy and specificity in diagnostic coding. Providers should, always, document and code according to CMS regulations and follow all applicable coding guidelines for ICD-10-CM, CPT, and HCPCS code sets. Providers should note the following guidelines:

- Code all diagnoses to the highest level of specificity, which means assigning the most precise ICD code that most fully explains the narrative description in the medical chart of the symptom or diagnosis;
- Ensure medical record documentation is clear, concise, consistent, complete, legible, and meets CMS signature guidelines (each encounter must stand alone);
- Submit claims and encounter information in a timely manner;
- Alert WellCare of North Carolina of any erroneous data submitted and follow WellCare of North Carolina's policies to correct errors in a timely manner;
- Provide medical records as requested in a timely manner; and
- Provide ongoing training to their staff regarding appropriate use of ICD coding for reporting diagnoses.

Accurate and thorough diagnosis coding is imperative to WellCare of North Carolina's ability to manage members, comply with Risk Adjustment Data Validation audit requirements, and effectively offer a Marketplace product. Claims submitted with inaccurate or incomplete data will often require retrospective chart review.

Coding of Claims/ Billing Codes

WellCare of North Carolina requires claims to be submitted using codes from the current version of ICD-10-CM, ASA, DRG, CPT, and HCPCS Level II for the date the service was rendered. These requirements may be amended to comply with federal and state regulations as necessary. Below are some code related reasons a claim may reject or deny:

- Code billed is missing, invalid, or deleted at the time of services.
- Code is inappropriate for the age of the member.
- Diagnosis code is missing digits.
- Procedure code is pointing to a diagnosis that is not appropriate to be billed as primary.
- Code billed is inappropriate for the location or specialty billed.
- Code billed is a part of a more comprehensive code billed on same date of service.
- Written descriptions, itemized statements, and invoices may be required for non-specific types of claims or at the request of WellCare of North Carolina.
- Newborn services provided in the hospital will be reimbursed separately from the mother's hospital stay. Submit separate claims for the mother and newborn(s).

Billing from independent provider-based Rural Health Clinics (RHC) and Federally Qualified Health Centers (FQHC) for covered RHC/FQHC services furnished to members should be made with specificity regarding diagnosis codes and procedure code/modifier combinations.

Code all documented conditions that coexist at the time of the encounter/visit and require or affect patient care treatment or management. Do not code conditions that were previously treated and no longer exist. However, history codes may be used as secondary codes if the historical condition or family history has an impact on current care or influences treatment.

For more information regarding billing codes, coding, and code auditing/editing, please contact WellCare of North Carolina Provider Services or visit marketplace.wellcarenc.com. The clinical and payment policies are located under the "Provider Resources" link.

Clinical Lab Improvement Act (CLIA) Billing Instructions

CLIA numbers are required for CMS 1500 claims where CLIA Certified or CLIA waived services are billed. If the CLIA number is not present, the claim will be upfront rejected. Below are billing instructions on how and/or where to provide the CLIA certification or waiver number on the following claim type submissions:

Paper Claims

If a particular claim has services requiring an authorization number and CLIA services, only the CLIA number must be provided in Box 23.

*Note

An independent clinical laboratory that elects to file a paper claim form shall file Form CMS 1500 for a referred laboratory service (as it would any laboratory service). The line-item services must be submitted with a modifier 90. An independent clinical laboratory that submits claims in paper format may not combine non-referred (i.e., self-performed) and referred services on the same CMS 1500 claim form. When the referring laboratory bills for both non-referred and referred tests, it shall submit two separate claims, one claim for non-referred tests, the other for referred tests. If billing for services that have been referred to more than one laboratory, the referring laboratory shall submit a separate claim for each laboratory to which services were referred (unless one or more of the reference laboratories are separately billing). When the referring laboratory is the billing laboratory, the reference laboratory's name, address, and ZIP Code shall be reported in item 32 on the CMS 1500 claim form to show where the service (test) was performed. The NPI shall be reported in item 32a. Also, the CLIA certification or waiver number of the reference laboratory shall be reported in item 23 on the CMS 1500 claim form.

EDI

If a single claim is submitted for those laboratory services for which CLIA certification or waiver is required, report the CLIA certification or waiver number in: X12N 837 (HIPAA version) loop 2300, REF02. REF01 = X4;

-Or-

If a claim is submitted with both laboratory services for which CLIA certification or waiver is required and non-CLIA covered laboratory test, in the 2400 loop for the appropriate line report the CLIA certification or waiver number in: X12N 837 (HIPAA version) loop 2400, REF02. REF01 = X4.

*Note

The billing laboratory submits, on the same claim, tests referred to another (referral/rendered) laboratory, with modifier 90 reported on the line item and reports the referral laboratory's CLIA certification or waiver number in: X12N 837 (HIPAA version) loop 2400, REF02. REF01 = X4.

Please refer to the 5010 implementation guides for the appropriate loops to enter the CLIA number. If a particular claim has services requiring an authorization number and CLIA services, only the CLIA number must be provided.

Web

Complete Box 23 with CLIA certification or waiver number as the prior authorization number for those laboratory services for which CLIA certification or waiver is required.

Taxonomy Code Billing Requirement

Taxonomy numbers are required for all WellCare of North Carolina claims. Claims submitted without taxonomy numbers will be upfront rejected with an EDI Reject Code of 91. If the claim was submitted on paper, a rejection letter will be returned indicating that the taxonomy code was missing.

The verbiage associated with Reject 91 is as follows: Invalid or Missing Taxonomy Code. Please contact Provider Services to resolve this issue.

Below are three scenarios involving the Taxonomy Code Billing Requirements:

Scenario One: Rendering NPI is different than the Billing NPI

Claim Reconsiderations Related to Code Editing and Editing

Claims reconsiderations resulting from claim-editing are handled per the provider claims dispute process outlined in this manual. When submitting claims reconsiderations, please submit medical records, invoices, and all related information to assist with the appeals review.

If you disagree with a code edit or edit and request claim reconsideration, you must submit medical documentation (medical records) related to the reconsideration. If medical documentation is not received, the original code edit(s) will be upheld.

CODE EDITING

WellCare of North Carolina uses HIPAA-compliant code auditing software to improve accuracy and efficiency in claims processing, payment, and reporting. The software detects and documents coding errors on provider claims prior to payment by analyzing CPT, HCPCS, ICD-10, modifier, and place of service codes against correct coding guidelines. While code auditing software is a useful tool to ensure provider compliance with correct coding, it will not wholly evaluate all clinical patient scenarios. Consequently, WellCare of North Carolina uses clinical validation by a team of experienced nursing and coding experts to further identify claims for potential billing errors. Clinical validation allows for consideration of exceptions to correct coding principles and may identify where additional reimbursement is warranted. WellCare of North Carolina may have policies that differ from correct coding principles. Accordingly, exceptions to general correct coding principles may be required to ensure adherence to health plan policies and to facilitate accurate claims reimbursement.

WellCare of North Carolina may request medical records or other documentation to verify that all procedures and/or services billed are properly supported in accordance with correct coding guidelines.

CPT and HCPCS Coding

The Healthcare Common Procedure Coding System (HCPCS) is a set of health care procedure codes based on the American Medical Association's (AMA) Current Procedural Terminology (CPT). The HCPCS system was designed to standardize coding to ensure accurate claims payment and consists of two levels of standardized coding.

1. **Level I HCPCS Codes (CPT):** This code set is maintained by the AMA. CPT codes are a 5- digit, uniform coding system used by providers to describe medical procedures and services rendered to a patient. These codes are updated (added, revised, and deleted) on an annual basis.
2. **Level II HCPCS Codes:** The Level II set of HCPCS codes is used to describe supplies, products and services that are not included in the CPT code descriptions (durable medical equipment, orthotics, and prosthetics, etc.). The Level II set is an alphanumeric coding system which is maintained by CMS. These codes are updated on an annual basis.
3. **Miscellaneous/Unlisted Codes:** These codes are a subset of the Level II HCPCS coding system and are used by a provider or supplier when there is no existing CPT code to accurately represent the services provided. Claims submitted with miscellaneous or unlisted codes are subject to a manual

review. To facilitate the manual review, providers are required to submit medical records with the initial claim submission. If records are not received, the provider will receive a denial indicating that medical records are required. The medical documentation should clearly define the procedure performed including, but not limited to, office notes, operative report, and pathology report and related pricing information. Once received, a registered nurse reviews the medical records to determine if there was a more specific code(s) to accurately describe the service or procedure rendered. Clinical validation also includes identifying and reviewing other procedures and services billed on the claim that may be related to the miscellaneous code. For example, if the miscellaneous code is determined to be the primary procedure, then other procedures and services that are integral to the successful completion of the primary procedure should be included in the reimbursement value of the primary code.

4. **Temporary National Codes:** These codes are a subset of the Level II HCPCS coding system and are used to code services when no permanent, national code exists. These codes are considered temporary and may only be used until a permanent code is established. These codes consist of G, Q, K, S, H and T code ranges.
5. **Modifiers:** Modifiers are used to indicate additional information about the HCPCS, or CPT code billed. On occasion, certain procedures require more explanation because of special circumstances. For example, modifier -25 is appended to evaluation and management services to indicate that a patient was seen for a new or special circumstance unrelated to a previously billed surgery for which there is a global period.

International Classification of Diseases (ICD-10)

ICD-10 is an alphanumeric system used by providers to classify diagnoses and symptoms. These codes consist of three to seven digits, which allows for a high level of specificity in coding a wide range of health problems.

Revenue Codes

These 4-digit numeric codes are utilized by institutional providers to represent services, procedures, and/or supplies provided in a hospital or facility setting. Claims submitted with revenue codes should indicate a corresponding procedure code.

Edit Sources

The claims editing software contains a comprehensive set of rules addressing coding inaccuracies such as: unbundling, frequency limitations, fragmentation, up coding, duplication, invalid codes, mutually exclusive procedures, and other coding inconsistencies. Each rule is linked to a generally accepted coding principle. Guidance surrounding the most likely clinical scenario is applied. This information is provided by clinical consultants, health plan medical directors, current research, etc.

The following sources are utilized in determining correct coding guidelines for the software:

- Centers for Medicare & Medicaid Services (including National Correct Coding Initiative (NCCI) Policy Manual and Claims Processing Manual guidelines as well as current PTP and MUE tables)

- American Medical Association (CPT, HCPCS, and ICD-10 guidelines and publications including CPT manual, AMA website, CPT Assistant, CPT Insider’s View, etc.)
- Public domain specialty provider associations (such as American College of Surgeons, American College of Radiology, American Academy of Orthopedic Surgeons, American College of Obstetricians and Gynecologists, etc.).
- State provider manuals, fee schedules, periodic provider updates (bulletins/transmittals)
- CMS coding resources such as National Physician Fee Schedule, Provider Benefit Manual, MLN Matters and Provider Transmittals
- Health Plan policies and provider contract considerations
- In addition to nationally recognized coding guidelines, the software has flexibility to allow business rules that are unique to the needs of individual product lines

Code Editing and the Claims Adjudication Cycle

Code editing is the final step in the claims adjudication process. Once a claim has completed all previous adjudication steps (such as benefits and member/provider eligibility review), the claim is ready for analysis.

As a claim progresses through the code editing cycle, each service line on the claim is processed through the code editing rules engine and evaluated for correct coding. As part of this evaluation, the prospective claim is analyzed against other codes billed on the same claim as well as previously paid claims found in the member/provider history.

Depending upon the code edit applied, the software will make the following recommendations:

Deny: Code editing rule recommends the denial of a claim line. The appropriate explanation code is documented on the provider’s explanation of payment along with reconsideration/appeal instructions.

Pend: Code editing recommends that the service line pend for clinical review and validation. This review may result in a pay or deny recommendation. The decision is documented on the provider’s explanation of payment along with reconsideration/appeal instructions

Replace and Pay: Code editing recommends denial of a service line, and a new line is added and paid. In this scenario, the original service line is left unchanged on the claim and a new line is added to reflect the software recommendations. For example, an incorrect CPT code is billed for the member’s age. The software will deny the original service line billed by the provider and add a new service line with the correct CPT code, resulting in a paid service line. This action does not alter or change the provider’s billing, as the original billing remains on the claim.

Code Editing Principles

The below principles do not represent an all-inclusive list of code editing principles, but rather an area sampling of edits which are applied to physician and/or outpatient facility claims.

Unbundling Edits

PTP Practitioner and Hospital Edits

CMS has designated certain combinations of codes that are generally not separately reimbursable on the same date of service. These are known as Procedure-to-Procedure (PTP) and/or Column I/Column II edits. Within the PTP edit category, there are Practitioner edits (applicable to claims submitted by physicians, non-physician practitioners, and ambulatory surgical centers) and Hospital edits (applicable to hospitals, skilled nursing facilities, home health agencies, outpatient physical therapy, speech-language pathology, and comprehensive outpatient rehabilitation facilities).

The procedure code listed in column I is the most comprehensive code; reimbursement for the column II code is subsumed into the payment for the comprehensive code. The column II code is considered an integral component to the successful outcome of the column I code.

While these code pairs should not be billed together under most circumstances, there are circumstances when an NCCI-associated modifier may be appended to the column II code to indicate a significant and separately identifiable or distinct service. When these modifiers are used, prepay clinical validation will be performed to ensure that services are reported appropriately. For more information on the PTP edits, please visit www.cms.gov.

Medically Unlikely Edits (MUEs) for Practitioners, DME Providers and Facilities

An MUE is the maximum units of service that a provider would report under most circumstances for a single beneficiary on a single date of service. These edits are based on CPT/HCPCS code descriptions, anatomic specifications, nature of the service/procedure, nature of the analyte, equipment prescribing information and clinical judgment. Not all HCPCS/CPT codes have an MUE limit.

Code Bundling Rules Not Sourced To CMS

Many specialty medical organizations and health advisory committees have developed rules around how codes should be used in their area of expertise. These rules are published and are available for use by the public domain. Procedure code definitions and relative value units are considered when developing these code sets. Rules are specifically designed for professional and outpatient facility claims editing.

Procedure Code Unbundling

Two or more procedure codes are used to report a service when a single, more comprehensive code should have been used. The less comprehensive code will be denied.

Mutually Exclusive Editing

These are combinations of procedure codes that may differ in technique or approach but result in the same outcome. The procedures may be impossible to perform together anatomically. Procedure codes may also be considered mutually exclusive when an initial or subsequent service is billed on the same date of service. The procedure with the highest RVU is considered the reimbursable code.

Incidental Procedures

These are procedure code combinations that are considered clinically integral to the successful completion of the primary procedure and should not be billed separately.

Global Surgical Period Editing/Medical Visit Editing

CMS publishes rules surrounding payment of an evaluation and management service during the global surgical period of a procedure. The global surgery data is taken from the CMS Medicare Fee Schedule Database (MFSDB).

Procedures are assigned a 0, 10 or 90-day global surgical period. Procedures assigned a 90-day global surgical period are designated as major procedures. Procedures assigned a 0- or 10-day global surgical period are designated as minor procedures.

Evaluation and Management services for a major procedure (90-day period) that are reported 1-day preoperatively, on the same date of service or during the 90-day post-operative period are not recommended for separate reimbursement.

Evaluation and Management services that are reported with minor surgical procedures on the same date of service or during the 10-day global surgical period are not recommended for separate reimbursement.

Evaluation and Management services for established patients that are reported with surgical procedures that have a 0-day global surgical period are not recommended for reimbursement on the same day of surgery because there is an inherent evaluation and management service included in all surgical procedures.

Global Maternity Editing

Procedures with “MMM”

Global periods for maternity services are classified as “MMM”, Evaluation and management services billed during the antepartum period (270 days), on the same date of service or during the postpartum period (45 days) are not recommended for separate reimbursement if the procedure code includes antepartum and postpartum care.

Diagnostic Services Bundled to the Inpatient Admission (3-Day Payment Window)

Identifies outpatient diagnostic services that are provided to a member within three days prior to and including the date of an inpatient admission. When these services are billed by the same admitting facility or an entity wholly owned or operated by the admitting facility, they are considered bundled into the inpatient admission and therefore are not separately reimbursable.

Multiple Code Rebundling

Analyzes instances in which a provider billed two or more procedure codes when a single more comprehensive code should have been billed to represent all the services performed.

Frequency and Lifetime Edits

The CPT and HCPCS manuals define the number of times a single code can be reported. Some codes are allowed a limited number of times on a single date of service, over a given period or during a member's lifetime. State fee schedules also delineate the number of times a procedure can be billed over a given period or during a member's lifetime. A frequency edit is applied by code editing software when the procedure code is billed in excess of these guidelines.

Duplicate Edits

The code editing software evaluates prospective claims to determine if there is a previously paid claim for the same member and provider in history that is a duplicate to the prospective claim. The software also looks across different providers to determine if another provider was paid for the same procedure, for the same member on the same date of service. Finally, the software analyzes multiple services within the same range of services performed on the same day. For example, a nurse practitioner and physician billing for office visits for the same member on the same date of service.

National Coverage Determination Edits

CMS establishes guidelines that identify whether some medical items, services, treatments, diagnostic services, or technologies can be paid under Medicare. These rules evaluate diagnosis to procedure code combinations.

Anesthesia Edits

Identifies anesthesia services that have been billed with a surgical procedure code instead of an anesthesia procedure code.

Invalid Revenue to Procedure Code Editing

Identifies revenue codes billed with incorrect CPT codes.

Assistant Surgeon

Evaluates claims billed with an assistant surgeon that normally do not require the attendance of an assistant surgeon. Modifiers are reviewed as part of the claims analysis.

Co-Surgeon/Team Surgeon Edits

Evaluates claims billed with a co-surgeon or team surgeon that normally do not require a co-surgeon/team surgeon. CMS guidelines define whether an assistant, co-surgeon or team surgeon is reimbursable and the percentage of the surgeon's fee that can be paid to the assistant, co or team surgeon.

Add-on and Base Code Edits

Analyzes claims in which an add-on CPT code was billed without the primary service CPT code. Additionally, add-on codes are denied if the primary service code was denied. This rule also looks for circumstances where the primary code was billed in a quantity greater than one, when an add-on code should have been used to describe the additional services rendered.

Bilateral Edits

Analyzes claims in which the modifier -50 has been billed, but the same procedure code is submitted on a different service line on the same date of service without modifier -50. This rule is highly customized, as many health plans allow this type of billing.

Replacement Editing

Recommends that single service lines or multiple service lines are denied and replaced with a more appropriate code. For example, a provider bills more than one outpatient consultation code for the same member in the member's history. The software will deny the office consultation code and replace it with the appropriate evaluation and management service, established patient or subsequent hospital care code. Another example of the edit's function is when a provider has billed a new patient evaluation and management code within three years of a previous new patient visit. The edit will replace the second submission with the appropriate established patient visit. A crosswalk is used to determine the appropriate code to add.

Missing Modifier Edits

Analyzes service lines to determine if a modifier should have been reported but was omitted. For example, professional providers would not typically bill the global (technical and professional) component of a service when performed in a facility setting. The technical component is typically performed by the facility and not the physician.

Inpatient Facility Claim Editing

Potentially Preventable Readmissions Edit

Identifies readmissions within a specified time interval that may be clinically related to a previous admission. For example, a subsequent admission may be plausibly related to the care rendered during or immediately following a prior hospital admission in the case of readmission for a surgical wound infection or lack of postoperative follow up. Admissions to non-acute care facilities (such as skilled nursing facilities) are not considered readmissions and not considered for reimbursement. CMS determines the readmission time interval as 30 days; however, this rule is highly customizable by state rules and provider contracts.

Administrative and Consistency Rules

These rules are not based on clinical content and serve to validate code sets and other data billed on the claim. These types of rules do not interact with historically paid claims or other service lines on the prospective claim. Examples include, but are not limited to:

- **Procedure code invalid:** Evaluates claims for invalid procedure and revenue or diagnosis codes
- **Deleted Codes:** Evaluates claims for procedure codes which have been deleted

- **Modifier to procedure code validation:** Identifies invalid modifier to procedure code combinations. This rule analyzes modifiers affecting payment. As an example, modifiers such as -24, -25, -26, -57, -58 and -59.
- **Age:** Identifies procedures inconsistent with member's age
- **Gender Procedure:** Identifies procedures inconsistent with member's gender
- **Gender Diagnosis:** Identifies diagnosis codes inconsistent with member's gender
- **Incomplete/invalid diagnosis codes:** Identifies incomplete or invalid diagnosis codes

Prepayment Clinical Validation

Clinical validation is intended to identify coding scenarios that historically result in a higher incidence of improper payments. An example of WellCare of North Carolina's clinical validation services is the review of modifiers -25, -59, and X(EPSU). Within the CMS NCCI PTP edit tables, some code pairs allow an NCCI-associated modifier to be appended when the correct coding modifier indicator is "1". Furthermore, public-domain specialty organization edits may also be considered for override when billed with these modifiers. When these modifiers are billed, the provider's documentation should support a separately reimbursable service. Some examples of separately identifiable services include a different session, site or organ system, surgery, incision/excision, lesion, or separate injury. WellCare of North Carolina's clinical validation team uses the information on the prospective claim and claims history to determine whether it is likely that a modifier was used correctly based on the unique clinical scenario for a member on a given date of service.

The Centers for Medicare and Medicaid Services (CMS) supports this type of prepayment review. The clinical validation team uses nationally published guidelines from CPT and CMS to determine if a modifier was used correctly.

Modifiers -59 and X(EPSU)

The NCCI (National Correct Coding Initiative) states that the primary purpose of modifier -59 is to indicate that procedures or non-E/M services that are not usually reported together are appropriate for separate reimbursement under the circumstances. The CPT Manual defines modifier -59 as follows: "Modifier -59: Distinct Procedural Service: Under certain circumstances, it may be necessary to indicate that a procedure or service was distinct or independent from other non-E/M services performed on the same day. Modifier 59 is used to identify procedures/services, other than E/M services, which are not normally reported together, but are appropriate under the circumstances. Documentation must support a different session, different procedure or surgery, different site or organ system, separate incision/excision, separate lesion, or separate injury (or area of injury in extensive injuries) not ordinarily encountered or performed on the same day by the same individual.

Some providers routinely assign modifier -59 or X(EPSU) when billing a combination of codes that will result in a denial due to unbundling. Modifier -59 is commonly misused as related to the portion of the definition that allows its use to describe "different procedure or surgery". NCCI guidelines state that providers should not use

modifier -59 solely because two different procedures/surgeries are performed or because the CPT codes are different procedures. Modifier -59 should only be used if the two procedures/surgeries are performed at separate anatomic sites, at separate patient encounters or by different practitioners on the same date of service. NCCI defines different anatomic sites to include different organs or different lesions in the same organ. However, it does not include treatment of contiguous structures of the same organ.

WellCare of North Carolina uses the following guidelines to determine if modifier -59 or X(EPSU) was used correctly:

- The diagnosis codes or clinical scenario on the claim indicate multiple conditions or sites were treated or are likely to be treated;
- Claim history for the patient indicates that diagnostic testing was performed on multiple body sites or areas which would result in procedures being performed on multiple body areas and sites.
- Claim history supports that each procedure was performed by a different practitioner or during different encounters or those unusual circumstances are present that support modifier 59 were used appropriately.

To avoid incorrect denials providers should assign to the claim all applicable diagnosis and procedure codes used, and all applicable anatomical modifiers designating which areas of the body were treated.

Modifier -25

Both CPT and CMS specify that by using a modifier -25 the provider is indicating that a “significant, separately identifiable evaluation and management service was provided by the same physician on the same day of the procedure or other service”. Additional CPT guidelines state that the evaluation and management service must be significant and separate from other services provided or above and beyond the usual pre-, intra-, and postoperative care associated with the procedure that was performed.

The NCCI policy manual states that “If a procedure has a global period of 000 or 010 days, it is defined as a minor surgical procedure. (Osteopathic manipulative therapy and chiropractic manipulative therapy have global periods of 000.) The decision to perform a minor surgical procedure is included in the value of the minor surgical procedure and should not be reported separately as an E&M service. However, a significant and separately identifiable E&M service unrelated to the decision to perform the minor surgical procedure is separately reportable with modifier -25. The E&M service and minor surgical procedure do not require different diagnoses. If a minor surgical procedure is performed on a new patient, the same rules for reporting E&M services apply. The fact that the patient is “new” to the provider is not sufficient alone to justify reporting an E&M service on the same date of service as a minor surgical procedure. NCCI does contain some edits based on these principles, but the Medicare Carriers and A/B MACs processing practitioner service claims have separate edits.

WellCare of North Carolina uses the following guidelines to determine whether modifier -25 was used appropriately. If any one of the following conditions is met, the clinical nurse reviewer will recommend reimbursement for the E/M service.

- The E/M service is the first time the provider has seen the patient or evaluated a major condition
- A diagnosis on the claim indicates that a separate medical condition was treated in addition to the procedure that was performed
- The patient's condition is worsening as evidenced by diagnostic procedures being performed on or around the date of services
- Other procedures or services performed for a member on or around the same date of the procedure support that an E/M service would have been required to determine the member's need for additional services.
- To avoid incorrect denials, providers should assign all applicable diagnosis codes that support additional E/M services.

Claim Reconsiderations Related To Code Editing

Claims appeals resulting from claim editing are handled per the provider claims dispute process outlined in this manual. When submitting claims appeals, please submit medical records, invoices, and all related information to assist with the appeals review.

To request claim reconsideration, documentation (medical records) must be submitted related to the reconsideration. If medical documentation is not received, the original code edit will be upheld.

The reconsideration may include this type of information:

- Statement of why the service is medically necessary
- Medical evidence which supports the proposed treatment
- How the proposed treatment will prevent illness or disability
- How the proposed treatment will alleviate physical, mental, or developmental effects of the patient's illness
- How the proposed treatment will assist the patient to maintain functional capacity
- A review of previous treatments and results, including, based on your clinical judgment, why a new approach is necessary
- How the recommended service has been successful in other patients

Viewing Claims Coding Edits

Code Auditing Tool

A web-based code editing reference tool designed to “mirror” how code editing products evaluate code and code combinations during the editing of claims. The tool is available for providers who are registered on the Secure Provider Portal. The tool can be accessed in the Claims Module by clicking “Claim Editing Tool” in the Secure Provider Portal.

This tool offers many benefits:

- Prospectively access the appropriate coding and supporting clinical edit clarifications for services before claims are submitted.
- Proactively determine the appropriate code/code combination representing the service to ensure accurate billing

The tool reviews the codes entered to determine if the code or code combinations are correct based on the age, sex, location, modifier (if applicable), or other code(s) entered.

The Code Editing Assistant is intended for use as a “what if” or hypothetical reference tool. It is meant to apply coding logic only. The tool does not take into consideration historical claims information which may be used to determine if an edit is appropriate

The code editing assistant can be accessed from the Secure Provider Portal.

Disclaimer: This tool is used to apply coding logic only. It will not consider individual fee schedule reimbursement, authorization requirements, or other coverage considerations. Whether a code is reimbursable or covered is separate and outside of the intended use of this tool.

Automated Clinical Payment Policy Edits

Clinical payment policy edits are developed to increase claims processing effectiveness, to decrease the administrative burden of prior authorization, to better ensure payment of only correctly coded and medically necessary claims, and to provide transparency to providers. The purpose of these policies is to provide a guide to medical necessity, which is a component of the guidelines used to assist in making coverage decisions and administering benefits. These policies may be documented as a medical policy or pharmacy policy.

Clinical payment policies are implemented through prepayment claims edits applied within our claims adjudication system. Once adopted by the health plan, these policies are posted on the health plan’s Secure Provider Portal.

Clinical medical policies can be identified by an alpha-numeric sequence such as CP.MP.xxx in the reference number of the policy. Clinical pharmacy policies can be identified by an alpha-numeric sequence such as CP.PHAR.xxx in the reference number of the policy.

Most clinical payment policy edits are applied when a procedure code (CPT/HCPCS) is billed with a diagnosis (es) that does not support medical necessity as defined by the policy. When this occurs, the following

explanation (EX) code is applied to the service line billed with the disallowed procedure. This EX-code can be viewed on the provider's explanation of payment.

- xE: Procedure Code is disallowed with this Diagnosis Code(s) Per Plan Policy.

Clinical Payment Policy Appeals

Clinical payment policy denials may be appealed based on medical necessity. Providers who disagree with a claim denial based on a clinical payment policy, and who believe that the service rendered was medically necessary and clinically appropriate, may submit a written reconsideration request for the claim denial using the provider claim reconsideration/appeal/dispute or other appropriate process as defined in the health plan's provider manual. The appeal should include information such as:

1. Statement of why the service is medically necessary.
2. Medical evidence which supports the proposed treatment.
3. How the proposed treatment will prevent illness or disability.
4. How the proposed treatment will alleviate physical, mental, or developmental effects of the patient's illness.
5. How the proposed treatment will assist the patient to maintain functional capacity.
6. A review of previous treatments and results, including, based on your clinical judgment, why a new approach is necessary.
7. How the recommended service has been successful in other patients.

THIRD PARTY LIABILITY

Third party liability refers to any other health insurance plan or carrier (e.g., individual, group, employer-related, self-insured, or self-funded, or commercial carrier, automobile insurance and worker's compensation) or program that is or may be liable to pay all or part of the health care expenses of the member.

If third party liability coverage is determined after services are rendered, WellCare of North Carolina will coordinate with the provider to pay any claims that may have been denied for payment due to third party liability.

BILLING THE MEMBER

Covered Services

WellCare of North Carolina providers are prohibited from billing the member for any covered services except for copayments, coinsurance, and deductibles.

1. Copayments, coinsurance, and any unpaid portion of a deductible may be collected from the member at the time of service.
2. If the amount collected from the member is higher than the actual amount owed upon claim adjudication, the provider must reimburse the member the overpaid amount within 45 days.

For members who are in a suspended status and seeking services from providers:

1. Providers may advise the member that services may not be delivered because the member is in a suspended status. (Status must be verified through our Secure Provider Portal or by calling Provider Services. Providers should follow their internal policies and procedures regarding this situation.)
2. Should a provider make the decision to render services, the provider may collect from the member. Providers must submit a claim to WellCare of North Carolina.
3. If the member subsequently pays their premium and is removed from a suspended status, claims will be adjudicated by WellCare of North Carolina. The provider would then be responsible to reconcile the payment received from the member and the payment received from WellCare of North Carolina. The provider may then bill the member for an underpayment or return to the member any overpayment.
4. If the member does not pay their premium and is terminated from their WellCare of North Carolina plan, providers may bill the member for their full billed charges.
5. Non-participating providers may be limited by state or other regulations when balance billing members for amounts not considered to be copayments, coinsurance, or deductible.

Non-Covered Services

Contracted providers may only bill WellCare of North Carolina members for non-covered services if the member and provider both sign an agreement outlining the member's responsibility to pay prior to the services being rendered. The agreement must be specific to the services being rendered and clearly state:

1. The specific service(s) to be provided
2. A statement that the service is not covered by WellCare of North Carolina
3. A statement that the member chooses to receive and pay for the specific service
4. The member is not obligated to pay for the service if it is later found that service was covered by WellCare of North Carolina at the time it was provided, even if WellCare of North Carolina did not pay the provider for the service because the provider did not comply with WellCare of North Carolina requirements

Billing for "No-Shows"

Providers may bill the member a reasonable and customary fee for missing an appointment when the member does fails to call in advance to cancel the appointment. The "no show" appointment must be documented in the medical record.

Premium Grace Period for Members Receiving Advanced Premium Tax Credits (APTCs)

For purposes of this discussion, please note the following:

1. Premiums are billed and paid at the subscriber level; therefore, the grace period is applied at the subscriber level.
2. All members associated with the subscriber will inherit the enrollment status of the subscriber.
3. After the initial premium is paid, a grace period of 3 months from the premium due date is given for the payment of premium.
4. Coverage will remain in force during the grace period.
5. If payment of premium is not received within the grace period, coverage will be terminated as of the last day of the first month during the grace period. The member shall be held liable for the cost of Covered Services received during the grace period, as well as any unpaid premium.
6. During months two and three of the grace period, claims will be pended. The EX-Code on the Explanation of Payment will state: "LZ – Pend: Non-Payment of Premium." During month one, claims may be submitted and paid.

Failure to Obtain Authorization

Providers may not bill members for services when the provider fails to obtain an authorization and the claim is denied by WellCare of North Carolina.

No Balance Billing

Payments made by WellCare of North Carolina to providers less any copays, coinsurance, or deductibles which are the financial responsibility of the member, will be considered payment in full. Providers may not seek payment from WellCare of North Carolina members for the difference between the billed charges and the contracted rate paid by WellCare of North Carolina.

Interim Billing

It is the policy of WellCare Marketplace not to accept interim billing for estimated monies owed to participating and non-participating facilities. Claims processing will begin upon receipt of the final bill for services rendered for inpatient hospital stays and Skilled Nursing.

- WellCare Marketplace requires that participating and non-participating Providers submit final claim upon Members discharge from facility.
- To facilitate claims processing, it is recommended that Providers include an itemized statement and any supporting documentation with the claim submission.
- Interim billing will not be accepted. The claim will be denied until the final claim for the inpatient hospital stay or Skilled Nursing from the first date of admission through the date of final discharge is received.

MEMBER RIGHTS AND RESPONSIBILITIES

Member Rights

Providers must comply with the rights of members as set forth below:

1. To participate with providers in making decisions about their health care. This includes working on any treatment plans and making care decisions. The member should know any possible risks, problems related to recovery, and the likelihood of success. The member shall not have any treatment without consent freely given by the member or the member's legally authorized surrogate decision-maker. The member must be informed of their care options.
2. To know who is approving and who is performing the procedures or treatment. All likely treatments and the nature of the problem should be explained clearly.
3. To receive the benefits for which the member has coverage.
4. To be treated with respect and dignity.
5. To privacy of their personal health information, consistent with state and federal laws, and WellCare of North Carolina policies.
6. To receive information or make recommendations, including changes, about WellCare of North Carolina's organization and services, the WellCare of North Carolina network of providers, and member rights and responsibilities.
7. To candidly discuss with their providers appropriate and medically necessary care for their condition, including new uses of technology, regardless of cost or benefit coverage. This includes information from the member's primary care provider about what might be wrong (to the level known), treatment, and any known likely results. The provider must tell the member about treatments that may or may not be covered by the plan, regardless of the cost. The member has a right to know about any costs they will need to pay. This should be told to the member in a way that the member can understand. When it is not appropriate to give the member information for medical reasons, the information can be given to a legally authorized person. The provider will ask for the member's approval for treatment unless there is an emergency and the member's life, and health are in danger.
8. To make recommendations regarding the WellCare of North Carolina member's rights, responsibilities, and policies.
9. To voice complaints or appeals about: WellCare of North Carolina, any benefit or coverage decisions WellCare of North Carolina makes, WellCare of North Carolina coverage, or the care provided.
10. To refuse treatment for any condition, illness, or disease without jeopardizing future treatment, and to be informed by the provider(s) of the medical consequences.
11. To see their medical records.
12. To be kept informed of covered and non-covered services, program changes, how to access services, primary care provider assignment, providers, advance directive information, referrals and authorizations, benefit denials, member rights and responsibilities, and other WellCare of North

Carolina rules and guidelines. WellCare of North Carolina will notify members at least 60 days before the effective date of the modifications. Such notices shall include the following:

- Any changes in clinical review criteria,

 18. To refuse treatment to the extent the law allows. The member is responsible for their actions if treatment is refused or if the provider's instructions are not followed. The member should discuss all concerns about treatment with their primary care provider or other provider. The primary care provider or other provider must discuss different treatment plans with the member. The member must make the final decision.
 19. To select a primary care provider within the network. The member has the right to change their primary care provider or request information on network providers close to their home or work.
 20. To know the name and job title of people providing care to the member. The member also has the right to know which physician is their primary care provider.
 21. To have access to an interpreter when the member does not speak or understand the language of the area.
 22. To a second opinion by a network physician, at no cost to the member, if the member believes that the network provider is not authorizing the requested care, or if the member wants more information about their treatment.
 23. To execute an advance directive for health care decisions. An advance directive will assist the primary care provider and other providers to understand the member's wishes about the member's health care. The advance directive will not take away the member's right to make their own decisions. Examples of advance directives include:
 - Living Will
 - Health Care Power of Attorney
 - "Do Not Resuscitate" Orders

24. Members also have the right to refuse to make advance directives. Members may not be discriminated against for not having an advance directive.

2. To treat all health care professionals and staff with courtesy and respect.
3. To give accurate and complete information about present conditions, past illnesses, hospitalizations, medications, and other matters about their health. The member should make it known whether they clearly understand their care and what is expected of them. 4. To review and understand the information they receive about WellCare of North Carolina. The member needs to know the proper use of covered services.

CULTURAL COMPETENCY

WellCare of North Carolina views Cultural Competency as the measure of a person or organization's willingness and ability to learn about, understand, and provide excellent customer service across all segments of the population. It is the active implementation of a system-wide philosophy that values differences among individuals and is responsive to diversity at all levels in the community and within an organization and at all service levels the organization engages in outside of the organization. A sincere and successful Cultural Competency program is evolutionary and ever-changing to address the continual changes occurring within communities and families. In the context of health care delivery, Cultural Competency is the promotion of sensitivity to the needs of patients and incorporates cultural considerations that include, but are not limited to the following: race, ethnicity, primary language, age, geographic location, gender identity, sexual orientation, English proficiency, physical abilities/limitations, spiritual beliefs and practices, economic status, family roles, literacy, diverse populations. It accommodates the patient's culturally based attitudes, beliefs and needs within the framework of access to health care services and the development of diagnostic and treatment plans and communication methods to fully support the delivery of competent care to the patient. It is also the development and continued promotion of skills and practices important in clinical practice, cross-cultural interactions, and systems practices among providers and staff to ensure that services are delivered in a culturally competent manner.

WellCare of North Carolina is committed to the development, strengthening, and sustaining of healthy provider/member relationships. Members are entitled to dignified, appropriate care. Provider services should meet the unique needs of every enrollee regardless of race, ethnicity, culture, language proficiency, or

disability. In all interactions, providers are expected to act in a manner that is sensitive to the ways in which the member experiences the world. When healthcare services are delivered without regard for cultural differences, members are at risk for sub-optimal care. Members may be unable or unwilling to communicate their healthcare needs in an insensitive environment, reducing effectiveness of the entire healthcare process.

As part of WellCare of North Carolina's Cultural Competency Program, providers must:

- Facilitate member access to Cultural and Linguistic Services, including Informing members of their right to access free, quality medical interpreters, and signers, accessible transportation, and TDD/TTY services. To support informing members of their right to access free language services, it is recommended that providers post nondiscrimination notices and language assistance taglines in lobbies and on websites. Language assistance taglines notify individuals of the availability of language assistance the top 15 languages utilized in the state as identified by the ACA 1557 and include at least one tagline in 18-point font.
- Provide medical care with consideration of the members' primary language, race ethnicity and culture
- Participate in cultural competency training annually and ensure that office staff routinely interacting with members have also been given the opportunity to participate in, and have participated in, cultural competency training
- Ensure that treatment plans are developed with consideration of the member's race, country of origin, native language, social class, religion, mental or physical abilities, heritage, acculturation, age, gender, gender identity, sexual orientation, and other characteristics that may influence the member's perspective on health care
- Ensure an appropriate mechanism is established to fulfill the provider's obligations under the Americans with Disabilities Act including that all facilities providing services to members must be accessible to persons with disabilities. Additionally, no member with a disability may be excluded from participation in or be denied the benefits of services, programs, or activities of a public facility, or be subjected to discrimination by any such facility.

WellCare of North Carolina considers mainstreaming of members an important component of the delivery of care and expects providers to treat members without regard to race, color, creed, sex, gender identity, religion, age, national origin ancestry, marital status, sexual orientation, health status, income status, program membership, physical or behavioral disabilities except where medically indicated. Examples of prohibited practices include:

- Denying covered service(s) to the member;
- Denying availability of a facility; and
- Providing an WellCare of North Carolina member a covered service that is different or in a different manner, or at a different time or at a different location than to other "public" or private pay members (examples: separate waiting rooms, delayed appointment times).

Restrictions Related to Interpretation or Facilitation of Communication

- Providers may not request or require an individual with limited English proficiency to provide their own interpreter.
- Providers may not rely on staff other than qualified bilingual/multilingual staff to communicate directly with individuals with limited English proficiency.

- Providers may not use an accompanying adult or minor child to interpreter or facilitate communication

Exceptions to these expectations include:

- In an emergency involving an imminent threat to the safety or welfare of an individual or the public where there is no qualified interpreter for the individual with limited English proficiency immediately available;
- Accompanying adults (minors are excluded) where the individual with limited English proficiency specifically requests that the accompanying adult interpret or facilitate communication, the accompanying adult agrees to provide such assistance, and reliance on that adult for such assistance is appropriate under the circumstances for minimal needs.

Providers are encouraged to document in the member’s medical record any member denial of professional interpreters and the circumstances that resulted in the use of a minor or accompanying adult as an interpreter.

AMERICANS WITH DISABILITIES ACT (ADA)

Title III of the ADA mandates that public accommodations, such as a Provider’s office, be accessible to those with disabilities. The provisions of the ADA protect qualified individuals with a disability from:

- Exclusion from participation in the benefits of services, programs, or activities of a public entity.
- Denial of the benefits of services, programs, or activities of a public entity.
- Discrimination by any such entity. WellCare of North Carolina providers must provide physical access, accommodations, and accessible equipment for members with physical or mental disabilities as required by 42 CFR Section 438.206(c)(3).

Providers are required to comply with all federal and state disability access laws and regulations (including, but not limited to, the Medicaid/CHIP Managed Care final rule provisions noted above, the Americans with Disabilities Act, Section 504 of the Rehabilitation Act, and Section 1557 of the Affordable Care Act). WellCare of North Carolina must inspect the office of any Provider who provides services on-site at the Provider’s location and who seeks to participate in the Provider Network to determine whether the office is architecturally and programmatically accessible to persons with disabilities. Physical access,” also referred to as “architectural access,” refers to a person with a disability’s ability to access buildings, structures, and the environment. “Programmatic access” refers to a person with a disability’s ability to access goods, services, activities, and equipment.

If any disability access barriers are identified, the provider agrees, in writing, to remove the barrier to make the

office, facility, or services accessible to persons with disabilities within one hundred eighty (180) days after WellCare of North Carolina has identified the barrier.

Providers are also required to:

- Provide Interpretation Services in all languages, including American and Mexican Sign Language, at all key points of contact through a variety of formats, including but not limited to an in-person interpreter upon a member’s request; telephone, relay, or video remote interpreting 24 hours a day seven days a week; or through other formats, such as real-time captioning or augmentative & alternative communication devices, that ensure effective communication.
- Provide Member-Informing Materials (print documents, signage, and multimedia materials such as websites) translated into the currently identified threshold or concentration standard languages and provided through a variety of other means. This may include but not be limited to oral interpretation for other languages upon request; accessible formats (e.g., documents in Braille, large print, audio format, or websites with captioned videos and/or ASL versions) upon request; and easy-to-understand materials provided in a manner that takes into account different levels of health literacy.
- Provide Reasonable Accommodations that facilitate access for Members. This includes but is not limited to accessible: medical care facilities, diagnostic equipment, and examination tables & scales; and modification of policies, practices, and procedures (e.g., modify policies to permit the use of service animals or to minimize distractions and stimuli for Members with mental health or developmental disabilities).
- Inform Members of the availability of these cultural, linguistic, and disability access services at no cost to Members on brochures, newsletters, outreach and marketing materials, other materials that are routinely disseminated to Members, and at Member orientation sessions and sites where Members receive covered services.
 - WellCare of North Carolina and participating providers shall also facilitate access to these services and document a request and/or refusal of services in CRM or the provider’s member data system.
- Call your Provider Relations Representative at 1-833-925-2861 (TDD/TTY: 711) for more information.

Important Points to Remember: Word Choice

- Avoid words with negative connotations like “handicapped”, “afflicted”, “crippled”, “victim”, “sufferer”, etc.
- Do not refer to individuals by their disability. A person is not a condition.
- Emphasize “person first” terminology:
 - Handicapped = A PERSON with a disability

- Deaf = A PERSON who is deaf
- Mute = A PERSON without speech
- Confined/Wheelchair-Bound = A PERSON who uses a wheelchair
- If you happen to not have a disability currently in your life, that DOES NOT make you “normal” or “able-bodied”. It makes you “non-disabled”.

Call your Provider Relations Representative at 1-833-925-2861 for more information.

The term "disability" means, with respect to an individual -

Disability is any substantial limitation of one or more of a person’s daily life activities and may be present from birth or may occur during a person’s lifetime. Any individual meeting any of these conditions is an individual with a disability for purposes of coverage under the Americans with Disabilities Act.

Programmatic access to healthcare means that policies and practices that are part of the delivery of healthcare do not hinder the ability of members with disabilities to receive the same quality of care as other persons.

Common Methods to Ensure Equal Communication and Access to Information:

1. Provisions for intake forms to be completed by persons who are blind or with a low visual disability with the same confidentiality afforded other members
 - a. Use of large print forms, electronic or online web-based forms, or in-person staff assistance in a private location
2. Provision for a presence of sign language interpreters to enable full communication with deaf or hard of hearing members who use sign language
3. Provision for making auditory information (e.g., automated messages) available via alternative means
 - a. Written communication or secure web-based methods may be used as possible substitutes
4. Provision for communicating with deaf or hard of hearing members by telephone
 - a. Use of telephone relay services (TRS), video relay services (VRS), a TDD, or use of secure electronic means

Policies for Scheduling and Waiting

1. Policies that allow scheduling additional time for the duration of appointments for members with disabilities who may require it
 - a. Members may require more time than the standard because of multiple complexities. More time may be needed to conduct the examination or for communication through an interpreter as well as other communication issues.
2. Policies to enable members who may not be able to tolerate waiting in a reception area to be seen immediately upon arrival

- a. Members with cognitive, intellectual, or some psychiatric disability may be unable to wait in a crowded reception area without becoming agitated or anxious
3. Policies to allow flexibility in appointment times for members who use paratransit
 - a. Members may arrive late at appointments because of delays or other problems with paratransit scheduling or reliability
4. Policies to enable compliance with federal law that guarantees access to provider offices for people with disabilities who use service animals
 - a. Members with service animals expect the animal to accompany them into the waiting and examination rooms. This is protected under the Americans with Disabilities Act. This policy statement simply prepares staff to respond accordingly.

Policies for Conducting the Examination

1. Training of healthcare providers in operation of accessible equipment
 - a. Staff must know how to operate accessible equipment, such as adjustable height exam tables and scales so they can be regularly and easily utilized.

Policies for Follow-up or Referral

1. Current or potential members including people with disabilities should only be referred to another provider for established medical reasons or specialized expertise.
 - a. Referrals result in a delay of treatment and subject members to additional time, expenses, and reduce the member's choice of providers.
2. Knowledge and/or attention to the accessibility of laboratories, testing facilities, specialists, or other healthcare delivery venues to which members are referred.
 - a. Members may be unable to comply with medical referrals if referred location is not accessible and/or not prepared to provide the recommended service

- A public entity shall not impose or apply eligibility criteria that screen out or tend to screen out an individual with a disability or any class of individuals with disabilities from fully and equally enjoying any service, program, or activity, unless such criteria can be shown to be necessary for the provision of the service, program, or activity being offered.

- A public entity shall not exclude or otherwise deny equal services, programs, or activities to an individual or entity because of the known disability of an individual with whom the individual or entity is known to have a relationship or association.

- Providers must ensure their websites meet compliance with Section 508 Accessibility Standards. Section 508 is a federal law that requires agencies to provide people with disabilities equal access to electronic information and data comparable to those who do not have disabilities.

Provider Accessibility Initiative

WellCare of North Carolina is committed to providing equal access to quality health care and services that are physically and programmatically accessible for our members with disabilities. In May of 2017, our parent company, Centene, launched a Provider Accessibility Initiative (PAI) to increase the percentage of Centene's providers that meet minimum federal and state disability access standards. One of the goals of the PAI is to improve the accuracy, completeness, and transparency of provider self-reported disability access data in Provider Directories so that members with disabilities have the most accurate, accessible, and up-to-date information possible related to a provider's disability access. To accomplish this, providers are asked to complete a self-report of disability access that will be verified by WellCare of North Carolina through an onsite Accessibility Site Review (ASR).

WellCare of North Carolina's expectation, as communicated through the provider contract, is full compliance with all federal and state disability access laws and regulations (including, but not limited to, the Medicaid/CHIP Managed Care final rule provisions, the Americans with Disabilities Act, Section 504 of the Rehabilitation Act, and Section 1557 of the Affordable Care Act). "Minimum accessibility," as defined in the ASR Tool, is not to be confused with, nor is intended to replace, the obligation of full compliance with all federal and state disability access laws and regulations, which remains the legal responsibility of WellCare of North Carolina providers.

- physical accessibility;
- physical appearance;
- adequacy of waiting and examining room space; and
- adequacy of medical/treatment record keeping.

Member Appeals

Pre-service Member Appeals must follow the Appeal process below. A member must designate in writing to WellCare of North Carolina for a provider to act on behalf of the member regarding the appeal process.

An Appeal is the mechanism which allows providers the right to appeal actions of WellCare of North Carolina such as a prior authorization denial, or if the member is aggrieved by any rule, policy, procedure, or decision made by WellCare of North Carolina. A member has 60 calendar days from WellCare of North Carolina's notice of action to file the appeal. WellCare of North Carolina shall acknowledge receipt of each appeal within 5 business days after receiving an appeal. WellCare of North Carolina shall resolve each appeal and provide written notice of the appeal resolution, as expeditiously as the member's health condition requires, but shall not exceed 30 calendar days from the date WellCare of North Carolina receives the appeal. WellCare of North Carolina may extend the timeframe for resolution of the appeal up to 14 calendar days if the member requests the extension or WellCare of North Carolina demonstrates that there is need for additional information and how the delay is in the member's best interest. For any extension not requested by the member, WellCare of North Carolina shall provide written notice to the member for the delay.

Expedited appeals may be filed with WellCare of North Carolina if the member's provider determines that the time expended in a standard resolution could seriously jeopardize the member's life or health or ability to attain, maintain, or regain maximum function. No punitive action will be taken against a provider that requests an expedited resolution or supports a member's appeal. In instances where the member's request for an expedited appeal is denied, the appeal must be transferred to the timeframe for standard resolution of appeals.

Decisions for expedited appeals are issued as expeditiously as the member's health condition requires, not exceeding 72 hours from the initial receipt of the appeal. WellCare of North Carolina may extend this timeframe by up to an additional 14 calendar days if the member requests the extension or if WellCare of North Carolina provides satisfactory evidence that a delay in rendering the decision is in the member's best interest.

Providers may also invoke any remedies as determined in the Participating Provider Agreement.

QUALITY IMPROVEMENT PLAN

Overview

WellCare of North Carolina’s culture, systems, and processes are structured around its mission to improve the health of all enrolled members. The Quality Assessment and Performance Improvement (QAPI) Program utilizes a systematic approach to quality improvement initiatives applying reliable and valid methods of monitoring, analysis, evaluation, and improvement in the delivery of healthcare provided to all members, including those with special needs. This system provides a continuous cycle for assessing the level of care and service among health plan initiatives, including preventive health, acute and chronic care, behavioral health, over- and under-utilization, continuity and coordination of care, patient safety, and administrative and network services. This includes the implementation of appropriate interventions and designation of adequate resources to support the interventions. WellCare of North Carolina requires all practitioners and providers to cooperate with all quality improvement activities and allow WellCare of North Carolina to use practitioner and/or provider performance data to ensure success of the QAPI Program.

WellCare of North Carolina is accredited by the National Committee for Quality Assurance (NCQA), an independent, nonprofit organization dedicated to improving health care quality. The NCQA seal is a widely recognized symbol of quality. NCQA Health Plan Accreditation surveys include rigorous on-site and off-site evaluation of standards, with a national oversight committee of physicians who analyze the survey team’s findings and assign an accreditation level based on the performance level of each health plan as evaluated against NCQA’s standards. This recognition is the result of WellCare of North Carolina’s long-standing dedication to provide quality health care service and programs to our members.

WellCare of North Carolina promotes the delivery of appropriate care with the primary goal to improve the health status of its members. Where the member’s condition is not amenable to improvement, WellCare of North Carolina implements measures to prevent any further decline in condition or deterioration of health status or provide for comfort measures as appropriate and requested by the member. This includes the identification of members at risk of developing conditions, the implementation of appropriate interventions, and designation of adequate resources to support the interventions. Whenever possible, the WellCare of North Carolina QAPI Program supports these processes and activities that are designed to achieve demonstrable and sustainable improvement in the health status of its members.

QAPI Program Structure

The WellCare of North Carolina Board of Directors has the ultimate oversight for the care and service provided to members. The Board of Directors oversees the QAPI Program and has established various committees and ad-hoc committees to monitor and support the QAPI Program.

The Quality Improvement Committee (QIC) is a senior management committee with physician representation that is directly accountable to the Board of Directors. The primary purpose of the QIC is:

- to enhance and improve quality of care;
- to provide oversight and direction regarding policies, procedures, and protocols for member care and services; and
- to offer guidelines based on recommendations for appropriateness of care and services.

This is accomplished through a comprehensive, plan-wide system of ongoing, objective, and systematic monitoring; the identification, evaluation, and resolution of process issues; the identification of opportunities to improve member outcomes; and the education of members, providers, and staff regarding the Quality Improvement, Utilization Management, Pharmacy and Credentialing Programs.

The following standard sub-committees report directly to the QIC:

- Credentialing Committee
- Utilization Management Committee
- Performance Improvement Team
- HEDIS® Steering Committee
- Pharmacy and Therapeutics Committee
- Delegate Vendor Oversight/Joint Operations Committee
- Peer Review Committee (ad hoc)
- Subcommittees may also include a Grievance and Appeals Committee, Cultural Competence Committee, Member Advisory Committee, Physician Advisory Committee, Hospital Advisory Committee, and the Community Advisory Committee, based on health plan needs and state requirements.

Practitioner Involvement

WellCare of North Carolina recognizes the integral role practitioner plays in the success of the QAPI Program. Practitioner involvement in various levels of the process is highly encouraged through network provider representation. WellCare of North Carolina encourages primary care, behavioral health, specialty, and OB/GYN representation on key quality committees such as, but not limited to, the QIC, Credentialing Committee, and select ad-hoc committees.

Network practitioners and providers are contractually required to cooperate with all quality improvement activities to improve the quality of care and services and member experience. This includes the collection and evaluation of performance data and participation in WellCare of North Carolina's QI programs and use of performance data for quality improvement activities.

Practice Guidelines

Evidence based preventive health and clinical practice guidelines are provided to assist providers in making decisions regarding health care in specific clinical situations. Guidelines are adopted from national recognized sources, in consultation with network providers (including behavioral health as indicated) and based on the health needs and opportunities for improvement identified as part of the QAPI Program, valid and reliable clinical evidence, or a consensus of health care professionals in the field and needs of the members.

Preventive health and clinical practice guidelines are reviewed annually and updated upon significant new scientific evidence or change in national standards or at least every two years. WellCare of North Carolina distributes updated guidelines to all affected providers and makes all current preventive health and clinical practice guidelines available online via the WellCare of North Carolina website and/or secure provider portal.

A complete listing of approved preventive health and clinical practice guidelines is available at marketplace.wellcarenc.com.

Patient Safety and Quality of Care

Patient safety is a key focus of the WellCare of North Carolina QAPI Program. Monitoring and promoting patient safety is integrated throughout activities across the health plan, primarily through identification of potential and/or actual quality of care events. A potential quality of care issue is any alleged act or behavior that may be detrimental to the quality or safety of patient care, is not compliant with evidence-based standard practices of care, or that signals a potential sentinel event, up to and including death of a member. WellCare of North Carolina employees (including medical management staff, member services staff, provider services, complaint coordinators, etc.), panel practitioners, facilities or ancillary providers, members or member representatives, Medical Directors, or the Board of Directors may advise the QI Department of potential quality of care issues. Adverse events may also be identified through claims-based reporting and analyses. A potential quality of care issue requires investigation of the factors surrounding the event to decide of the severity and need for corrective action up to and including review by an WellCare of North Carolina Medical Director or the Peer Review Committee, as indicated. Potential quality of care issues are tracked and monitored for trends in occurrences, regardless of their outcome or severity level.

Performance Improvement Process

The WellCare of North Carolina QIC reviews and adopts an annual QAPI Program Description and Work Plan based on managed care appropriate industry and accreditation standards. The QIC adopts traditional quality/risk/utilization management approaches to identify problems, issues, and trends with the objective of developing and implementing improvement opportunities. Initiatives are selected based on data that indicates the need for improvement in a particular clinical or non-clinical area and includes targeted interventions that have the greatest potential for improving health outcomes or service standards.

Performance improvement projects, focus studies, and other QI initiatives are designed and implemented in accordance with principles of sound research design and appropriate statistical analysis. Results of these studies are used to evaluate the appropriateness and level of care and services delivered against established standards and guidelines for the provision of that care or service. Each QI initiative is also designed to allow WellCare of North Carolina to monitor improvement over time.

Annually, WellCare of North Carolina completes an evaluation of the QAPI Program and develops a QAPI Work Plan for the upcoming year based on the evaluation. The QAPI Work Plan serves as a working document to guide quality improvement efforts on a continuous basis. The Work Plan integrates QIC activities, reporting, and studies from all areas of the organization (clinical and service) and includes timelines for completion and reporting to the QIC as well as requirements for external reporting. Studies and other performance measurement activities and issues to be tracked over time are scheduled in the QAPI Work Plan.

WellCare of North Carolina providers may request additional information on the health plan programs, including a description of the QAPI Program and a report on WellCare of North Carolina's progress in meeting QAPI Program goals, by contacting the QI Department.

Quality Rating System

Healthcare Effectiveness Data and Information Set (HEDIS®)

HEDIS® is a set of standardized performance measures developed by the National Committee for Quality Assurance (NCQA), which allows comparison across health plans. HEDIS® gives purchasers and consumers the ability to distinguish between health plans based on comparative quality instead of simply cost differences.

As Federal and State governments move toward a health care industry that is driven by quality, HEDIS® rates are becoming more and more important, not only to the health plan, but to the individual provider. Purchasers of health care may use the aggregated HEDIS® rates to evaluate the effectiveness of a health insurance company's ability to demonstrate the clinical management of its members. Physician-specific scores are being used as evidence of preventive care from primary care office practices.

HEDIS® Rate Calculations

HEDIS® rates can be calculated in two ways: administrative data or hybrid data. Administrative data consists of claim and encounter data submitted to the health plan. Measures typically calculated using administrative data include annual mammogram, annual chlamydia screening, appropriate treatment of asthma, cholesterol

management, antidepressant medication management, access to PCP services, and utilization of acute and behavioral health services.

Hybrid data consists of both administrative data and a sample of medical record data. Hybrid data requires review of a random sample of medical records to extract data regarding services rendered but not reported to the health plan through claims or encounter data. Accurate and timely claims and encounter data and submission using appropriate CPT, ICD-10, and HCPCS codes can reduce the necessity of medical record reviews (see the marketplace.wellcarenc.com and HEDIS® brochure (posted on marketplace.wellcarenc.com) for more information on reducing HEDIS® medical record reviews). HEDIS® measures typically requiring medical record review include childhood immunizations, well child visits, diabetic HbA1c values, LDL, eye exam and nephropathy, controlling high-blood pressure, cervical cancer screening, and prenatal care and postpartum care.

Who Conducts Medical Record Reviews (MRR) for HEDIS®?

WellCare of North Carolina may contract with an independent national MRR vendor to conduct the HEDIS® MRR on its behalf. Medical record review audits for HEDIS® are conducted on an ongoing basis with a particular focus from January through May each year. At that time, a sample of your patient's medical records may be selected for review; you will receive a call and/or a letter from a medical record review representative. Your prompt cooperation with the representative is greatly needed and appreciated.

As a reminder, sharing of protected health information (PHI) that is used or disclosed for purposes of treatment, payment, or health care operations is permitted by HIPAA Privacy Rules (45 CFR 164.506) and does not require consent or authorization from the member. The MRR vendor will sign a HIPAA compliant Business Associate Agreement with WellCare of North Carolina, which allows them to collect PHI on our behalf.

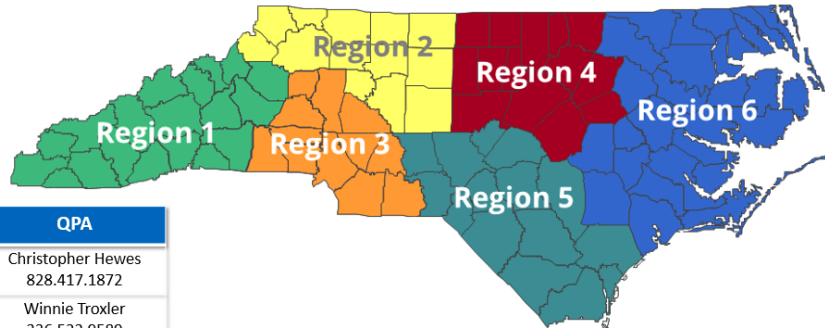

How can providers improve their HEDIS® scores?

- **Understand the specifications** established for each HEDIS® measure.
- **Submit claims and encounter data for each and every service rendered.** All providers must bill (or submit encounter data) for services delivered, regardless of their contract status with WellCare of North Carolina. Claims and encounter data is the most clean and efficient way to report HEDIS®.
- **Submit claims and encounter data correctly, accurately, and on time.** If services rendered are not filed or billed accurately, then they cannot be captured and included in the scoring calculation. Accurate and timely submission of claims and encounter data will reduce the number of medical record reviews required for HEDIS® rate calculation.
- **Ensure chart documentation reflects all services provided.** Keep accurate chart/medical record documentation of each member service, and document conversation/services.

Submit claims and encounter data using CPT codes related to HEDIS® measures such as diabetes, eye exam, and blood pressure, where appropriate.

If you have any questions, comments, or concerns related to the annual HEDIS® project or medical record reviews, please contact the Quality Improvement Department by phone number(s) pictured below:

Provider Satisfaction Survey

WellCare of North Carolina conducts an annual provider satisfaction survey, which includes questions to evaluate the provider experience our services such as claims, communications, utilization management, and provider services. Behavioral health providers receive a provider survey specific to the provision of behavioral health services in the WellCare of North Carolina network. The survey is conducted by an external vendor. Participants are randomly selected by the vendor, meeting specific requirements outlined by WellCare of North Carolina. If selected by the vendor, we encourage you to respond timely to the survey as the results of the survey are analyzed and used as a basis for forming provider related quality improvement initiatives.

Qualified Health Plan (QHP) Enrollee Survey

The QHP Enrollee survey is a tool that measures the member experience and is integral to support CMS’s ongoing administration of the Health Insurance Marketplace as well as a requirement for NCQA accreditation. It is a standardized survey administered annually to members by an NCQA-certified survey vendor. The survey provides information on the experiences of members with health plan and practitioner services. It gives a general indication of how well the plan is meeting the members’ expectations. Member responses to the QHP survey are used in various aspects of the quality program, including, but not limited to, monitoring member perception of practitioner access and availability and care coordination. This survey is similar to the NCQA survey tool CAHPS (Consumer Assessment of Healthcare Provider Systems) used for other lines of business. Members receiving behavioral health services have the opportunity to respond to the Experience of Care Health Outcomes (ECHO) survey to provide feedback and input into the quality oversight of the behavioral health program.

Provider Performance Monitoring and Incentive Programs

It is nationally recognized that pay-for-performance (P4P) programs, which include provider profiling, are a promising strategy to improve the level and cost-effectiveness of care. WellCare of North Carolina will manage a provider performance monitoring program to capture data relating to healthcare access, costs, and level of care that WellCare of North Carolina members receive.

The WellCare of North Carolina Provider Profiling Program is designed to analyze utilization data to identify provider utilization and care issues. WellCare of North Carolina will use provider profiling data to identify opportunities to improve communications to providers regarding preventive health and clinical practice guidelines. Provider profiling is a highly effective tool that compares individual provider practices to normative data, so that providers can improve their practice patterns, processes, and level of care in alignment with evidence-based clinical practice guidelines. The WellCare of North Carolina Program and Provider Overview Reports will increase provider awareness of performance, identify opportunities for improvement, and facilitate plan-provider collaboration in the development of clinical improvement initiatives. WellCare of North Carolina's Profiling Program incorporates the latest advances in this evolving area.

Process For Submitting Medical Records

WellCare of North Carolina requires members' medical record data for a wide variety of operational and analytical processes that help to improve quality, reduce risk, and lower costs of care for the members being served. These processes include but are not limited to quality (e.g., HEDIS®) and risk adjustment data tracking, clinical and population health stratification and prioritization, investigation of potential quality of care concerns, and continuity of care and care planning purposes. In addition, WellCare of North Carolina requires medical record data relating to its members for purposes of complying with a wide array of regulatory and statutory data reporting requirements. Making these data available to WellCare of North Carolina in the form of Electronic Medical Record (EMR) data reduces costs for both the provider and WellCare of North Carolina.

At WellCare of North Carolina's request, Provider will make commercially reasonable efforts to make EMR data relating to WellCare of North Carolina's members available and accessible to WellCare of North Carolina within a reasonable time frame requested by WellCare of North Carolina via: 1) electronic access to APIs (Application Programming Interfaces), 2) use of HL7 and FHIR data transfer protocols, and/or 3) data-formatted content delivered via Continuity of Care Document (CCD) data specifications. Alternatively, at WellCare of North Carolina's request or authorization, Provider may provide EMR data to WellCare of North Carolina by other means, including but not limited to text file, image, or PDF, which may be transferred through SFTP (Secured File Transfer Protocol) or available for download via a secure web portal.

WellCare of North Carolina reserves the right to assess a penalty of up to \$30.00 per unmet medical record request on providers that fail to provide medical records as reasonably requested by Health Plan.

REGULATORY MATTERS

Medical Records

WellCare of North Carolina providers must keep accurate and complete patient medical records which are consistent with 45 CFR 156, financial, and other records pertinent to WellCare of North Carolina members. Such records enable providers to render the most appropriate level of health care service to members. They will also enable WellCare of North Carolina to review the level and appropriateness of the services rendered. To ensure the member's privacy, medical records should be kept in a secure location. WellCare of North Carolina requires providers to maintain all records for members for at least 10 years after the final date of service, unless a longer period is required by applicable state law.

Required Information

To be considered a complete and comprehensive medical record, the member's medical record (file) should include, at a minimum: provider notes regarding examinations, office visits, referrals made, tests ordered, and results of diagnostic tests ordered (i.e., x-rays, laboratory tests). Medical records should be accessible at the site of the member's participating primary care provider. All medical services received by the member, including inpatient, ambulatory, ancillary, and emergency care, should be documented, and prepared in accordance with all applicable state rules and regulations and signed by the medical professional rendering the services.

Providers must maintain complete medical records for members in accordance with the standards set forth below:

- Member's name, and/or medical record number must be on all chart pages.
- Personal/biographical data is present (i.e., employer, home telephone number, spouse, next of kin, legal guardianship, primary language, etc.).

- Appropriate subjective and objective information pertinent to the member's presenting complaints is documented in the history and physical.
- Past medical history (for members seen three or more times) is easily identified and includes any serious accidents, operations and/or illnesses, discharge summaries, and ER encounters; for children and adolescents (18 years and younger) past medical history relating to prenatal care, birth, any operations and/or childhood illnesses.
- Working diagnosis is consistent with findings.
- Treatment plan is appropriate for diagnosis.
- Documented treatment prescribed, therapy prescribed, and drug administered or dispensed, including instructions to the member.
- Documentation of prenatal risk assessment for pregnant members or infant risk assessment for newborns.
- Signed and dated required consent forms are included.
- Unresolved problems from previous visits are addressed in subsequent visits.
- Laboratory and other studies ordered as appropriate are documented.
- Abnormal lab and imaging study results have explicit notations in the record for follow up plans; all entries should be initialed by the primary care provider (PCP) to signify review.
- Referrals to specialists and ancillary providers are documented, including follow up of outcomes and summaries of treatment rendered elsewhere, including family planning services, preventive services, and services for the treatment of sexually transmitted diseases.
- Health teaching and/or counseling is documented.
- For members 10 years and over, appropriate notations concerning use of tobacco, alcohol, and substance use (for members seen three or more times substance abuse history should be queried).

- Evidence that an advance directive has been offered to adults 18 years of age and older.

Access to Records and Audits by WellCare of North Carolina

Subject only to applicable state and federal confidentiality or privacy laws, the provider shall permit WellCare of North Carolina or its designated representative access to provider's records, at provider's place of business in this state during normal business hours, or remote access of such records, to audit, inspect, review, perform chart reviews, and duplicate such records. If performed on site, access to records for the purpose of an audit shall be scheduled at mutually agreed upon times, upon at least 30 business days prior written notice by WellCare of North Carolina or its designated representative, but not more than 60 days following such written notice.

EMR Access

Providers will grant WellCare of North Carolina access to the provider's Electronic Medical Record (EMR) system to effectively case manage members and capture medical record data for risk adjustment and quality reporting. There will be no other fees charged to the WellCare of North Carolina for this access.

Medical Records Release

All member medical records are confidential and must not be released without the written authorization of the member or their parent/legal guardian, in accordance with state and federal law and regulation. When the release of medical records is appropriate, the extent of that release should be based upon medical necessity or on a need-to-know basis.

All release of specific clinical or medical records for substance use disorders must meet federal guidelines at 42 CFR Part 2 and any applicable state laws.

Medical Records Transfer for New Members

All PCPs are required to document in the member's medical record attempts to obtain historical medical records for all newly assigned WellCare of North Carolina members. If the member or member's parent/legal guardian is unable to remember where they obtained medical care, or they are unable to provide addresses of the previous providers, then this should also be noted in the medical record.

Federal And State Laws Governing The Release Of Information

The release of certain information is governed by a myriad of federal and/or state laws.

These laws often place restrictions on how specific types of information may be disclosed, including, but not limited to, behavioral health, alcohol /substance abuse treatment, and communicable disease records.

For example, HIPAA requires that covered entities, such as health plans and providers, release protected health information only when permitted under the law, such as for treatment, payment, and operations activities, including care management and coordination.

However, a different set of federal rules place more stringent restrictions on the use and disclosure of alcohol and substance abuse treatment records (42 CFR Part 2 or "Part 2"). These records generally may not be released without consent from the individual whose information is subject to the release.

Still other laws at the state level place further restrictions on the release of certain information, such as behavioral health, communicable disease, etc.

For more information about any of these laws, refer to the following:

- HIPAA - please visit the Centers for Medicare & Medicaid Services (CMS) website at: www.cms.hhs.gov, and then select “Regulations and Guidance” and “HIPAA – General Information;”
- 42 CFR Part 2 regulations - please visit the Substance Abuse and Mental Health Services Administration (within the U.S. Department of Health and Human Services) at: www.samhsa.gov;
- State laws - consult applicable statutes to determine how they may impact the release of information on patients whose care you provide.

Contracted providers within the WellCare of North Carolina network are independently obligated to know, understand, and comply with these laws.

WellCare of North Carolina takes privacy and confidentiality seriously. We have established processes, policies, and procedures to comply with HIPAA and other applicable federal and/or State confidentiality and privacy laws.

Please contact the WellCare of North Carolina Compliance Officer by phone at 1-866-678-8355 or in writing (refer to address below) with any questions about our privacy practices.

Section 1557 of the Patient Protection and Affordable Care Act

Section 1557 is the nondiscrimination provision of the Affordable Care Act (ACA). The law prohibits discrimination because of race, color, national origin, sex, age, or disability in certain health programs or activities. Section 1557 builds on long-standing and familiar Federal civil rights laws: Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975. Section 1557 extends nondiscrimination protections to individuals participating in:

- Any health program or activity any part of which received funding from HHS
- Any health program or activity that HHS itself administers
- Health Insurance Marketplaces and all plans offered by issuers that participate in those Marketplaces.

For more information, please visit www.hhs.gov/civil-rights/for-individuals/section-1557/index.html.

FRAUD, WASTE AND ABUSE

WellCare of North Carolina takes the detection, investigation, and prosecution of fraud and abuse very seriously and has

a Fraud, Waste, and Abuse (FWA) program that complies with the federal and state laws. WellCare of North Carolina, in conjunction with its parent company, Centene, operates a Fraud, Waste, and Abuse unit. WellCare of North Carolina routinely conducts audits to ensure compliance with billing regulations. Our sophisticated code editing software performs systematic audits during the claim's payment process. To better understand this system, please review the billing and claims section of this manual. The Centene Special Investigation Unit (SIU) also performs retrospective audits, which, in some cases, may result in taking actions against providers who commit fraud, waste, and/or abuse. These actions include but are not limited to:

- Remedial education and training to prevent the billing irregularity
- More stringent utilization review
- Recoupment of previously paid monies
- Termination of provider agreement or other contractual arrangement
- Civil and/or criminal prosecution
- Announced or unannounced onsite audit investigations
- Corrective action plan
- Any other remedies available to rectify

Some of the most common FWA practices include:

- Unbundling of codes
- Up-coding services
- Add-on codes billed without primary CPT
- Diagnosis and/or procedure code not consistent with the member's age
- Use of exclusion codes
- Excessive use of units
- Misuse of benefits
- Claims for services not rendered

WellCare of North Carolina auditors consider state and federal laws and regulations, provider contracts, billing histories, and fee schedules in making determinations of claims payment appropriateness. If necessary, a clinician of like specialty may also review specific cases to determine if billing is appropriate. Auditors issue an audit results letter to each provider upon completion of the audit, which includes a claims report identifying all records reviewed during the audit. If the auditor determines that clinical documentation does not support the claims payment in some or all circumstances, WellCare of North Carolina will seek recovery of all overpayments. Depending on the number of services provided during the review period, WellCare of North Carolina may calculate the overpayment using an extrapolation methodology. Extrapolation is the use of statistical sampling to calculate and project overpayment amounts. It is used by Medicare Program Safeguard

Contractors, CMS Recovery Audit Contractors, and Medicaid Fraud Control Units in calculating overpayments, and is recommended by the OIG in its Provider Self-Disclosure Protocol (63 Fed. Reg. 58,399; Oct. 30, 1998).

If you suspect or witness a provider inappropriately billing or a member receiving inappropriate services, please call our anonymous and confidential FWA hotline at 1-866-685-8664. WellCare of North Carolina takes all reports of potential fraud, waste, or abuse very seriously and investigates all reported issues.

FWA Program Compliance Authority and Responsibility

The Vice President of Compliance has overall responsibility and authority for carrying out the provisions of the compliance program. WellCare of North Carolina is committed to identifying, investigating, sanctioning, and prosecuting suspected fraud, waste, and abuse.

The WellCare of North Carolina provider network must cooperate fully in making personnel and/or subcontractor personnel available in person for interviews, consultation, grand jury proceedings, pre-trial conferences, hearings, trials, and in any other process, including investigations.

Post-Processing Claims Audit

A post-processing claims audit consists of a review of clinical documentation and claims submissions to determine whether the payment made was consistent with the services rendered. To start the audit, WellCare of North Carolina auditors request medical records for a defined review period. Providers have 30 days to respond to the request; if no response is received, a second and final request for medical records is forwarded to the provider. If the provider fails to respond to the second and final request for medical records, or if services for which claims have been paid are not documented in the medical record, WellCare of North Carolina will recover all amounts paid for the services in question.

WellCare of North Carolina auditors review cases for common FWA practices including:

- Unbundling of codes
- Up-coding services
- Add-on codes billed without primary CPT
- Diagnosis and/or procedure code not consistent with the member's age/gender
- Use of exclusion codes
- Excessive use of units
- Misuse of benefits
- Claims for services not rendered

WellCare of North Carolina auditors consider state and federal laws and regulations, provider contracts, billing histories, and fee schedules in making determinations of claims payment appropriateness. If necessary, a clinician of like specialty may also review specific cases to determine if billing is appropriate. Auditors issue an audit results letter to each provider upon completion of the audit, which includes a claims report identifying all records reviewed during the audit. If the auditor determines that clinical documentation does not support the claims payment in some or all circumstances, WellCare of North Carolina will seek recovery of all overpayments. Depending on the number of services provided during the review period, WellCare of North Carolina may calculate the overpayment using an extrapolation methodology. Extrapolation is the use of

statistical sampling to calculate and project overpayment amounts. It is used by Medicare Program Safeguard Contractors, CMS Recovery Audit Contractors, and Medicaid Fraud Control Units in calculating overpayments, and is recommended by the OIG in its Provider Self-Disclosure Protocol (63 Fed. Reg. 58,399; Oct. 30, 1998).

False Claims Act

The False Claims Act establishes liability when any person or entity improperly receives or avoids payment to the Federal government. The Act prohibits:

- Knowingly presenting, or causing to be presented a false claim for payment or approval
- Knowingly making, using, or causing to be made or used, a false record or statement material to a false or fraudulent claim
- Conspiring to commit any violation of the False Claims Act
- Falsely certifying the type or amount of property to be used by the Government
- Certifying receipt of property on a document without completely knowing that the information is true
- Knowingly buying Government property from an unauthorized officer of the Government
- Knowingly making, using, or causing to be made or used a false record to avoid or decrease an obligation to pay or transmit property to the Government

For more information regarding the False Claims act, please visit www.cms.hhs.gov.

Physician Incentive Programs

On an annual basis and in accordance with federal regulations, WellCare of North Carolina must disclose to the Centers for Medicare and Medicaid Services, any Physician Incentive Programs that could potentially influence a physician's care decisions. The information that must be disclosed includes the following:

- Effective date of the Physician Incentive Program
- Type of Incentive Arrangement
- Amount and type of stop-loss protection
- Patient panel size
- Description of the pooling method, if applicable
- For capitation arrangements, provide the amount of the capitation payment that is broken down by percentage for primary care, referral, and other services
- The calculation of substantial financial risk (SFR)
- Whether WellCare of North Carolina does or does not have a Physician Incentive Program
- The name, address, and other contact information of the person at WellCare of North Carolina who may be contacted with questions regarding Physician Incentive Programs

Physician Incentive Programs may not include any direct or indirect payments to providers/provider groups that create inducements to limit or reduce the provision of necessary services. In addition, Physician Incentive Programs that place providers/provider groups at SFR may not operate unless there is adequate stop-loss protection, member satisfaction surveys, and satisfaction of disclosure requirements satisfying the Physician Incentive Program regulations.

Substantial financial risk occurs when the incentive arrangement places the provider/provider group at risk beyond the risk threshold, which is the maximum risk if the risk is based upon the use or cost of referral services. The risk threshold is set at 25% and does not include amounts based solely on factors other than a provider/provider group's referral levels. Bonuses, capitation, and referrals may be considered incentive arrangements that result in SFR.

If you have questions regarding the Physician Incentive Program regulations, please contact your Provider Partnership Manager.

Appendix VIII: Reimbursement Policies

Generally, WellCare of North Carolina follows Medicare reimbursement policies. Instances that vary from Medicare include:

Admissions for Same or Related Diagnoses

Inpatient admissions for the same or a related diagnoses occurring within 30 days following a discharge in connection with a previous admission shall be considered part of the previous admission and are not separately reimbursable.

Calculating Anesthesia

Anesthesia time is defined as the period during which an anesthesia practitioner is present with the patient. It starts when the anesthesia practitioner begins to prepare the patient for anesthesia services in the operating room or an equivalent area and ends when the anesthesia practitioner is no longer furnishing anesthesia

services to the patient, that is, when the patient may be placed safely under postoperative care. Anesthesia time is a continuous time from the start of anesthesia to the end of an anesthesia service.

Certified Nurse Midwife (CNM) Rules

Payment for CNM services is made at 100% of the contracted rate.

EKG Payment

EKG Interpretation is separately billable and payable from the actual test. However, the first provider to bill receives payment for services.

Physician Site of Service

Physicians will be paid at Physician rate only at the following Sites of Service: Office, Home, Assisted Living Facility, Mobile unit, walk in retail health clinic, urgent care facility, birthing center, nursing facility, SNFs, independent clinic, FQHC, Intermediate HC Facility, Resident Substance Abuse Facility, Nonresident Substance Abuse Facility, Comprehensive OP Rehab facility, ESRD Facility, State or Local Health Clinic, RHC, Indy lab, Other POS.

Diagnostic Testing of Implants

Charges and payments for diagnostic testing of implants following surgery is not included in the global fee for surgery and is reimbursable if the testing is outside the global timeframe. If it is inside the global timeframe, it is not reimbursable.

Hospital-Acquired Conditions and Provider Preventable Conditions

Payment to a contracted Provider under the compensation schedule shall comply with state and federal laws requiring reduction of payment or non-payment to a contracted provider for “hospital-acquired conditions” and for “provider preventable conditions” as such terms (or the reasonable equivalents thereof) are defined under applicable state and federal laws.

Lesser Of Language

Pay Provider lesser of the Providers allowable charges or the contracted rate.

Multiple Procedure Rules for Surgery and Endoscopic

Where multiple outpatient surgical or scope procedures are performed on a member during a single occasion of surgery, reimbursement will be as follows:

- The procedure for which the allowed amount is greatest will be reimbursed at 100%.
- The procedures with second and third greatest allowed amounts will each be reimbursed at 50%.
- Any additional procedures will not be eligible for reimbursement.

Multiple Procedure Rules for Radiology

Multiple procedure radiology codes follow Multiple Procedure reimbursement guidelines: 100%/50%/50%, max three radiology codes.

Physician Assistant (PA) Payment Rules

Physician assistant services are reimbursed at 85% of the fee schedule or the allowed amount for a physician.

PA services furnished during a global surgical period shall be paid at 85% of what a physician is paid under the WellCare of North Carolina Physician Fee Schedule.

PA assistant-at-surgery services shall be paid at 85% of what a physician is paid under the Medicare Physician Fee Schedule. Since physicians are paid at 16% of the surgical payment amount under the Medicare Physician Fee Schedule for assistant-at-surgery services, the actual payment amount that PAs receive for assistant-at-surgery services is 13.6% of the amount paid to physicians. The AS modifier must be used.

Provider-Based Billing

Provider-based billing will not be reimbursed as it is included as part of the compensation for professional fees. Neither the payor nor the member shall be responsible for such provider-based billing. Provider-based billing is the amount charged by a clinic or facility as a technical component, or for overhead, in connection with professional services rendered in a clinic or facility and includes but is not limited to services billed using Revenue Codes 510-519.

Nurse Practitioner (NP) and Clinical Nurse Specialist (CNS) Payment Rules

In general, NPs and CNSs are paid for covered services at 85% of what a physician is paid under the WellCare of North Carolina Physician Fee Schedule.

NP or CNS assistant-at-surgery services shall be paid at 85% of what a physician is paid under the WellCare of North Carolina Physician Fee Schedule. Since physicians are paid at 16% of the surgical payment amount under the WellCare of North Carolina Physician Fee Schedule for assistant-at-surgery services, the actual payment amount that PAs receive for assistant-at-surgery services is 13.6% of the amount paid to physicians. The AS modifier must be used.

Reimbursement Service Grouping

If either payor or provider determines in good faith that a change made by payor to a reimbursement service grouping has (or is reasonably expected to have) an adverse financial impact that is more than an immaterial effect (e.g., an increase or decrease in provider's overall reimbursement of three percent or more), such party may notify the other party of such determination within the 365-day period following the date on which such change is made. Following the timely giving of such notice, payor will evaluate the effect of such change and, notwithstanding anything to the contrary contained elsewhere in the provider agreement (or schedule or attachment), Payor will implement appropriate adjustments, if any, to the reimbursement amounts with the intention of making the change in the reimbursement service groupings cost neutral and to offset for the adverse financial impact. Payor will notify provider, in writing, of the adjustments made.

Surgical Physician Payment Rules

For surgeries billed with either modifier 54, 55, 56, or 78, pay the appropriate percentage of the fee schedule payment as identified by the modifier and procedure code used.

Incomplete Colonoscopy Rule

Incomplete colonoscopies should be billed with CPT 45378 and modifier 53. This will pay 25% of the fee schedule rate for the incomplete procedures. The rest of the claim pays according to the fee schedule.

Injection Services

Injection service codes must pay separately if no other physician service is paid and when not billed with office visit. If an office visit is billed, then no injection is payable because it is covered in the office charge.

Unpriced Codes

If the CMS/Medicare does not contain a published fee amount, an alternate “gap fill” source is utilized to determine the fee amount. Unlisted codes are subject to the code edit and audit process and require submission of medical records.

Rental or Purchase Decisions

Rental or purchase decisions are made at the discretion of Medical Management.

Payment for Capped Rental Items during Period of Continuous Use

When no purchase options have been exercised, rental payments may not exceed a period of continuous use of longer than 13 months. For the month of death or discontinuance of use, contractors pay the full month rental. After 13 months of rental have been paid, the supplier must continue to provide the item without any charge, other than for the maintenance and servicing fees until medical necessity ends or WellCare of North Carolina coverage ceases. For this purpose, unless there is a break in need for at least 60 days, medical necessity is presumed to continue. Any lapse greater than 60 days triggers new medical necessity.

If the beneficiary changes suppliers during or after the 13-month rental period, this does not result in a new rental episode. The supplier that provides the item in the 13th month of the rental period is responsible for supplying the equipment and for maintenance and servicing after the 13-month period. If the supplier changes after the 10th month, there is no purchase option.

Percutaneous Electrical Nerve Stimulator (PENS) Rent Status While Hospitalized

An entire month's rent may not be paid when a patient is hospitalized during the month. The rent will be prorated to allow for the time not hospitalized.

Transcutaneous Electrical Nerve Stimulator (TENS)

To permit an attending physician time to determine whether the purchase of a TENS is medically appropriate for a particular patient, contractors pay 10 percent of the purchase price of the item for each of two months. The purchase price and payment for maintenance and servicing are determined under the same rules as any

other frequently purchased item. There is a reduction in the allowed amount for purchase due to the two months rental.

Rules of Exchange

The Rules of Exchange section details the responsibilities of trading partners in submitting or receiving electronic transactions with WellCare of North Carolina.

Transmission Confirmation

Transmission confirmation may be received through one of two possible transactions: the ASC X12C/005010X231 Implementation Acknowledgment for Health Care Insurance (TA1, 999). A TA1 Acknowledgement is used at the ISA level of the transmission envelope structure, to confirm a positive

transmission or indicate an error at the ISA level of the transmission. The 999 Acknowledgement may be used to verify a successful transmission or to indicate various types of errors.

Confirmations of transmissions, in the form of TA1 or 999 transactions, should be received within 24 hours of batch submissions, and usually sooner. Senders of transmissions should check for confirmations within this time frame.

Batch Matching

Senders of batch transmissions should note that transactions are unbundled during processing, and rebundled so that the original bundle is not replicated. Trace numbers or patient account numbers should be used for batch matching or batch balancing.

TA1 Interchange Acknowledgement

The TA1 Interchange Acknowledgement provides senders a positive or negative confirmation of the transmission of the ISA/IEA Interchange Control.

999 Functional Acknowledgement

The 999 Functional Acknowledgement reports on all Implementation Guide edits from the Functional Group and transaction Sets.

277CA Health Care Claim Acknowledgement

The X12N005010X214 Health Care Claim Acknowledgment (277CA) provides a more detailed explanation of the transaction set. WellCare of North Carolina also provides the Pre-Adjudication rejection reason of the claim within the STC12 segment of the 2220D loop. **NOTE: The STC03 – Action Code will only be a “U” if the claim failed on HIPAA validation errors, NOT Pre-Adjudication errors.**

Duplicate Batch Check

To ensure that duplicate transmissions have not been sent, WellCare of North Carolina checks five values within the ISA for redundancy:

- ISA06, ISA08, ISA09, ISA10, ISA13

Collectively, these numbers should be unique for each transmission. A duplicate ISA/IEA receives a TA1 response of “025” (Duplicate Interchange Control Number).

To ensure that Transaction Sets (ST/SE) have not been duplicated within a transmission, WellCare of North Carolina checks the ST02 value (Transaction Set Control Number), which should be a unique ST02 within the Functional Group transmitted.

Note: ISA08 & GS03 could also be the Single Payer ID

New Trading Partners

New trading partners should access <https://sites.edifecs.com>, register for access, and perform the steps in the WellCare of North Carolina trading partner program. The EDI Support Desk (EDIBA@centene.com) will contact you with additional steps necessary upon completing your registration.

Claims Processing

Acknowledgements

Senders receive four types of acknowledgement transactions: the TA1 transaction to acknowledge the Interchange Control Envelope (ISA/IEA) of a transaction; the 999 transaction to acknowledge the Functional Group (GS/GE) and Transaction Set (ST/SE); the 277CA transaction to acknowledge health care claims; and the WellCare of North Carolina Audit Report. At the claim level of a transaction, the only acknowledgement of receipt is the return of the Claim Audit Report and/or a 277CA.

Coordination of Benefits (COB) Processing

To ensure the proper processing of claims requiring coordination of benefits, WellCare of North Carolina recommends that providers validate the patient's Membership Number and supplementary or primary carrier information for every claim.

Code Sets

Only standard codes, valid at the time of the date(s) of service, should be used.

Corrections and Reversals

The 837 defines what values submitters must use to signal payers that the Inbound 837 contains a reversal or correction to a claim that has previously been submitted for processing. For both Professional and Institutional 837 claims, 2300 CLM05-3 (Claim Frequency Code) must contain a value for the National UB Data Element Specification Type List Type of Bill Position 3.

Data Format/Content

WellCare of North Carolina accepts all compliant data elements on the 837 Professional Claim. The following points outline consistent data format and content issues that should be followed for submission.

Dates

The following statements apply to any dates within an 837 transaction:

- All dates should be formatted according to Year 2000 compliance, CCYYMMDD, except for ISA segments where the date format is YYMMDD.
- The only values acceptable for "CC" (century) within birthdates are 18, 19, or 20.
- Dates that include hours should use the following format: CCYYMMDDHHMM.
- Use Military format, or numbers from 0 to 23, to indicate hours. For example, an admission date of 201006262115 defines the date and time of June 26, 2010, at 9:15 PM.

- No spaces or character delimiters should be used in presenting dates or times.
- Dates that are logically invalid (e.g., 20011301) are rejected.
- Dates must be valid within the context of the transaction. For example, a patient's birth date cannot be after the patient's service date.

Decimals

All percentages should be presented in decimal format. For example, a 12.5% value should be presented as .125.

Dollar amounts should be presented with decimals to indicate portions of a dollar; however, no more than two positions should follow the decimal point. Dollar amounts containing more than two positions after the decimal point are rejected.

Monetary and Unit Amount Values

WellCare of North Carolina accepts all compliant data elements on the 837 Professional Claim; however, monetary or unit amount values that are in negative numbers are rejected.

Delimiters

Delimiters are characters used to separate data elements within a data string. Delimiters suggested for use by WellCare of North Carolina are specified in the Interchange Header segment (the ISA level) of a transmission; these include the tilde (~) for segment separation, the asterisk (*) for element separation, and the colon (:) for component separation.

Phone Numbers

Phone numbers should be presented as contiguous number strings, without dashes or parenthesis markers. For example, the phone number (336) 555-1212 should be presented as 3365551212. Area codes should always be included. WellCare of North Carolina requires the phone number to be AAABBBCCCC where AAA is the Area code, BBB is the telephone number prefix, and CCCC is the telephone number.

Additional Items

- WellCare of North Carolina will not accept more than 97 service lines per CMS 1450 (UB-04) claim.
- WellCare of North Carolina will not accept more than 50 service lines per CMS 1500 claim.
- WellCare of North Carolina will only accept single digit diagnosis pointers in the SV107 of the 837P.
- The Value-Added Network Trace Number (2300-REF02) is limited to 30 characters.

Identification Codes and Numbers

General Identifiers

Federal Tax Identifiers

Any Federal Tax Identifier (Employer ID or Social Security Number) used in a transmission should omit dashes or hyphens. WellCare of North Carolina sends and receives only numeric values for all tax identifiers.

Sender Identifier

The Sender Identifier is presented at the Interchange Control (ISA06) of a transmission. WellCare of North Carolina expects to see the sender's Federal Tax Identifier (ISA05, qualifier 30) for this value. In special circumstances, WellCare of North Carolina will accept a "Mutually Defined" (ZZ) value. Senders wishing to submit a ZZ value must confirm this identifier with WellCare of North Carolina EDI.

Provider Identifiers

National Provider Identifiers (NPI)

HIPAA regulation mandates that providers use their NPI for electronic claims submission. The NPI is used at the record level of HIPAA transactions; for 837 claims, it is placed in the 2010AA loop. See the 837 Professional Data Element table for specific instructions about where to place the NPI within the 837 Professional file. The table also clarifies what other elements must be submitted when the NPI is used.

Billing Provider

The Billing Provider Primary Identifier should be the group/organization ID of the billing entity, filed only at 2010AA. This will be a Type 2 (Group) NPI unless the Billing provider is a sole proprietor and processes all claims and remittances with a Type 1 (Individual) NPI.

Rendering Provider

When providers perform services for a subscriber/patient, the service will need to be reported in the Rendering Provider Loop (2310B or 2420A) You should only use 2420A when it is different than Loop 2310B/NM1*82.

Referring Provider

WellCare of North Carolina has no specific requirements for Referring Provider information.

Atypical Provider

Atypical Providers are not always assigned an NPI number, however, if an Atypical Provider has been assigned an NPI, then they need to follow the same requirements as a medical provider. An Atypical Provider which provides non-medical services is not required to have an NPI number (i.e., carpenters, transportation, etc.). Existing Atypical Providers need only send the Provider Tax ID in the REF segment of the Billing Provider loop.

NOTE: If an NPI is billed in any part of the claim, it will not follow the Atypical Provider Logic.

Subscriber Identifiers

Submitters must use the entire identification code as it appears on the **subscriber's card** in the 2010BA element.

Claim Identifiers

WellCare of North Carolina issues a claim identification number upon receipt of any submitted claim. The ASC X12 Technical Reports (Type 3) may refer to this number as the Internal Control Number (ICN), Document Control Number (DCN), or the Claim Control Number (CCN). It is provided to senders in the Claim Audit Report and in the CLP segment of an 835 transaction. WellCare of North Carolina returns the submitter's

Patient Account Number (2300, CLM01) on the Claims Audit Report and the 835 Claim Payment/Advice (CLP01).

Connectivity Media for Batch Transactions

Secure File Transfer

WellCare of North Carolina encourages trading partners to consider a secure File Transfer Protocol (FTP) transmission option. WellCare of North Carolina offers two options for connectivity via FTP.

- Method A – the trading partner will push transactions to the WellCare of North Carolina FTP server and WellCare of North Carolina will push outbound transactions to the WellCare of North Carolina FTP server.
- Method B – The trading partner will push transactions to the WellCare of North Carolina FTP server and WellCare of North Carolina will push outbound transactions to the trading partner’s FTP server.

Encryption

WellCare of North Carolina offers the following methods of encryption SSH/SFTP, FTPS (Auth TLS), FTP w/PGP, HTTPS (Note this method only applies with connecting to WellCare of North Carolina’s Secure FTP. WellCare of North Carolina does not support retrieval of files automatically via HTTPS from an external source currently.) If PGP or SSH keys are used, they will be shared with the trading partner. The business rules that define these requirements are identified in the 837 Professional Data Element Table below and are also available as a comprehensive list in the 837 Professional Claims – WellCare of North Carolina Business Edits Table. HIPAA TR3 implementation guide errors may be returned on either the TA1 or 999 while WellCare of North Carolina business edit errors are returned on the WellCare of North Carolina Claims Audit Report.

Any additional Regulatory Requirements that may apply to the Coverage Agreements or Covered Persons enrolled in or covered by this Product may be set forth in the Provider Manual or another Attachment. To the extent that a Coverage Agreement, or a Covered Person, is subject to the law cited in the parenthetical at the end of a provision on this Schedule A, such provision will apply to the rendering of Covered Services to a Covered Person with such Coverage Agreement, or to such Covered Person, as applicable.

N.J. ADMIN. CODE § 11:24C-4.3(c)1; 11:24B-5.2; 11:24B-5.3(a); 11:24B-5.2(a).

NJ-2 Amendments.

(a) To the extent that the Agreement permits unilateral changes, any Adverse Changes will only be made with sufficient advance notice to permit termination in advance of the effective date of the change. To the extent that the terms of the Agreement have been the subject of negotiation, no changes will be made unilaterally to the administration of the contract materially impacting those terms. N.J. ADMIN. CODE § 11:24C-4.3(c)3 – 4.

(b) Any Adverse Change during the term of the Agreement may be made in accordance with the terms of the Agreement only upon 90 days' notice prior to the effective date of the Adverse Change. If Provider declines to accept the Adverse Change, Contracted Provider may terminate the Agreement upon written notice to Health Plan prior to the effective date of the Adverse Change as set forth in N.J. ADMIN. CODE § 11:24C-4.3(c)3. N.J. ADMIN. CODE § 11:24C-4.3(d).

(c) To the extent that the Agreement automatically renews, no Adverse Change may be made to the terms of the Agreement upon its automatic renewal. Any such Adverse Change may be made to the Agreement as set forth in (b) above either before or after its renewal. N.J. ADMIN. CODE § 11:24C-4.3(e).

NJ-3 Network Lease. Health Plan may enter into agreements with third parties allowing the third parties to obtain the Health Plan's rights and responsibilities as if the third party were the contracting entity. For purposes of this Section, "third party" does not include any employer or other group for whom Health Plan provides administrative services, including at least the payment of claims. Health Plan shall provide Contracted Provider with a list of such third parties with access to the Agreement prior to execution of the Agreement. N.J. ADMIN. CODE § 11:24C-4.3(c)5.

NJ-4 Hold Harmless. Contracted Provider agrees that in no event, including but not limited to nonpayment by the Health Plan, Payor or intermediary, payment by the Health Plan, Payor or intermediary that is other than what the Contracted Provider believed to be in accordance with the reimbursement provision of the Agreement or is otherwise inadequate, insolvency of the Health Plan, Payor or intermediary, or breach of this Agreement, shall Contracted Provider bill, charge or collect a deposit from, seek compensation, remuneration or reimbursement from, or have any recourse against a Covered Person or a person (other than the Health Plan, Payor or intermediary) acting on behalf of the Covered Person for services provided pursuant to the Agreement. Nothing in the Agreement (including this Attachment) prohibits Contracted Provider from collecting coinsurance, deductibles, or copayments, as specifically provided in the evidence of coverage. Nothing in the Agreement (including this Attachment) prohibits Contracted Provider (except for a health care professional who is employed full-time on the staff of a health carrier and has agreed to provide services exclusively to that health carrier's covered persons and no others) and a Covered Person from agreeing to continue services solely at the expense of the Covered Person, as long as Contracted Provider has clearly informed the Covered Person that Health Plan or Payor may not cover or continue to cover a specific service or services. N.J. ADMIN. CODE §§ 11:4-37.4(c)8; 11:24-15.2(b)7; 11:24B-5(a)10.

NJ-5 Compliance with Law.

(a) The Agreement is consistent, and the parties shall comply, with applicable laws, including those regarding confidentiality of information and those regarding licensure, certification, and adequate malpractice insurance. Contracted Provider agrees that the Agreement is not worded so that compliance with the terms of the Agreement would cause Contracted Provider to violate the statutes or rules governing licensure, such as his or her professional licensing standards, including, but not limited to, N.J. ADMIN. CODE § 45:14B-31 et seq. N.J. ADMIN. CODE §§ 11:24A-4.15(a); 11:24A-4.15(e); 11:24-15.2(a); 11:24-15.2 (b)10 and (e); 11:24B-5.2(a)12.

(b) Any sections of the Agreement that conflict with applicable State or federal law are hereby amended to conform with the requirements of the State or federal law. N.J. ADMIN. CODE § 11:24B-5.2(a)1.

(c) To the extent that the Payor is an organized delivery system, the Agreement is governed by New Jersey law. N.J. ADMIN. CODE § 11:24B-5.2(a)7.

NJ-6 Term and Termination.

(a) The term of the Agreement and reasons for which the Agreement may be terminated by one or more parties, including the procedures for notice and effectuation of such termination,

(b) To the extent that the Agreement is terminated prior to the Agreement's renewal date, Health Plan shall give Contracted Provider at least 90 days' prior written notice, and Contracted Provider has a right to request a hearing following such notice except in enumerated circumstances consistent with N.J. ADMIN. CODE § 11:24A-4.9 or 11:24-3.5, as applicable. The contents of a notice of termination will contain: (i) a statement as to the right of Contracted Provider to obtain a reason for the termination in writing from Health Plan if the reason is not otherwise stated in the notice; (ii) the right of Contracted Provider to request a hearing, and any exceptions to that right; and (iii) the procedures for exercising either right. The procedures for requesting either are set forth in the Provider Manual and, with respect to a hearing, are consistent with the standards set forth at N.J. ADMIN. CODE §§ 11:24A-3.6 or 11:24A-4.9, to the extent applicable. Health Plan shall respond to a request from Contracted Provider for a reason for termination in writing. N.J. ADMIN. CODE §§ 11:24A-4.15(b)1; 11:24-3.5. Such written response will be provided within no more than 15 days of receipt of the request. N.J. ADMIN. CODE §§ 11:24-3.5; 11:24-15.2(b); 11:24B-5.3.

NJ-7 No Penalties.

(a) Contracted Provider's participation in the hearing process shall not be deemed to be an abrogation of Contracted Provider's legal rights. Contracted Provider will not be terminated or penalized because of filing a complaint or appeal as permitted by New Jersey rules. Contracted Provider may not be terminated or penalized for acting as an advocate for the patient in seeking appropriate, Medically Necessary health services. N.J. STAT. ANN. § 26:2S-9; N.J. ADMIN. CODE §§ 11:24A-4.15(b)2-3; 11:24-15.2(b); 11:24B-5.2(a)15.

(c) Nothing in the Agreement will be construed as providing financial incentives to the Contracted Provider for withholding Covered Services that are Medically Necessary as determined in accordance with N.J. STAT. ANN.

§ 26:2S-6, except that nothing in this Subsection will be construed to limit the use of capitated payment arrangements between Health Plan and Provider. N.J. STAT. ANN. § 26:2S-9; N.J. ADMIN. CODE §§ 11:24A-4.15(b)5; 11:24-15.2(b)5.i.

NJ-8 Compensation. The method of reimbursement, including the method, events, and timing of application of any penalties, bonuses, or other types of compensation arrangements, is set forth in the Agreement. To the extent that some portion of the compensation under the Agreement is tied to the

occurrence of a predetermined event, or the nonoccurrence of a predetermined event, the event will be clearly specified in the Agreement along with: (i) the right of Contracted Provider to receive a periodic accounting (no less frequently than annually) of the funds held, and (ii) the process whereby Contracted Provider may appeal a decision denying such additional compensation, in whole or in part, in accordance with any compensation arrangement tied to the occurrence or nonoccurrence of a pre-determined event. Notwithstanding the above, capitation will not be used as the sole method of reimbursement to a Contracted Provider that primarily provides supplies (e.g., prescription drugs or durable medical equipment) rather than services. N.J. ADMIN. CODE §§ 11:24A-4.15(b)5; 11:24-15.2(b)5; 11:24B-5.2(a)2.

NJ-9 Services. The Agreement describes the services and/or supplies to be provided by Contracted Provider and the Providers and for which benefits will be paid by Payor. N.J. ADMIN. CODE §§ 11:24A-4.15(b)6; 11:24-15.2(b)6; 11:24B-5.2(a)13.

The Provider Manual specifies all information required to explain the programs including, without limitation: the entity that is responsible for the day-to-day administration of the programs, the entity with which complaints regarding the quality assurance program may be lodged, and the entity that, to the extent applicable, and how provider feedback regarding the operations of Health Plan, a Payor or Contracted Provider will be elicited, the rights and obligations when appealing decisions. However, Health Plan and/or Payor have a mutual right by law to a Covered Person's medical records, as well as timely and appropriate communication of patient information, so that both Contracted Provider and the Providers and the Health Plan and/or Payor may perform their respective duties efficiently and effectively for the benefit of the Covered Person. N.J. ADMIN. CODE §§ 11:24A-4.15(b)9; 11:24-15.2(b)11.

N.J. ADMIN. CODE § 11:24C-4.4.

NJ-17 Licensed Organized Delivery Systems. N.J. STAT. ANN. § 17:48H-18.

(a) To the extent that Payor is a licensed organized delivery system, this Subsection applies with respect to such Payor. In the event that a Payor fails to pay or provide for comprehensive or limited health care services for any reason whatsoever, including, but not limited to, insolvency or breach of contract, neither the Health Plan nor the Covered Person will be liable to Contracted Provider or the Provider for any sums owed to Contracted Provider or the Provider under the Agreement. Contracted Provider may not, nor may any agent, trustee or assignee thereof maintain an action at law or attempt to collect from the Health Plan or the Covered Person sums owed to the Contracted Provider by the Payor, except that this Subsection shall not be construed to prohibit collection of uncovered charges consented to or lawfully owed to a Contracted Provider by Health Plan or a Covered Person.

STAT. ANN. § 26:2S-9.1 or N.J. ADMIN. CODE § 11:24A-4.8, as applicable. N.J. STAT. ANN. § 26:2S-9.1; N.J. ADMIN. CODE § 11:24A-4.15(b)4.

N.J. ADMIN. CODE §§ 11:24-15.2(f); 11:24B-5.7.

STATE REGULATORY REQUIREMENTS

This section sets forth the provisions that are required by State law to be included in the Agreement with respect to this Product. Any additional Regulatory Requirements that may apply to the Coverage Agreements or Covered Persons enrolled in or covered by this Product are or will be set forth in the Provider Manual or another Attachment. To the extent that a Coverage Agreement, or a Covered Person, or a Participation Provider is subject to the law cited in the parenthetical at the end of a provision in this section, such provision will apply to the rendering of Covered Services to a Covered Person with such Coverage Agreement, or to such Covered Person or Participating Provider, as applicable.

The Parties shall comply with the State requirements set forth below.

NC-1 Entire Agreement. The Agreement and any attached or incorporated amendments, exhibits, or appendices constitute the entire contract between the parties in accordance with this Section NC-1 and the "Entire Agreement" provision of the Agreement. (11 N.C. ADMIN. CODE 20.0202(1))

NC-2 Definitions. Except as set forth in this Section NC-2, the definitions of technical insurance or managed care terms used in the Agreement are generally set forth in the "Definitions" Article of the Agreement. To the extent applicable, such definitions contain references to certain other documents distributed to providers (e.g., the Provider Manual), and are consistent with the definitions included in the evidence of coverage issued in connection with the Coverage Agreements. (11 N.C. ADMIN. CODE 20.0202(2))

When appearing in this Product Attachment or the Agreement, the following quoted and bolded terms (and the plural thereof, when appropriate) have the meaning set forth below with respect to the Individual Market Product.

a. "**Emergency Medical Condition**" and "**Emergency Services**" or "**Emergency Care**" have the meaning set forth in N.C. GEN. STAT. § 58-3-190(g), which as of the Effective Date, "Emergency Services" (sometimes referred to herein as Emergency Care) means those health care items and services furnished or required to screen for or treat an emergency medical condition until the condition is stabilized, including prehospital care and ancillary services routinely available to the emergency department, and "Emergency Medical Condition" means a medical condition manifesting itself by acute symptoms of sufficient severity, including, but not limited to, severe pain, or by acute symptoms developing from a chronic medical condition that would lead a prudent layperson, possessing an average knowledge

of health and medicine, to reasonably expect the absence of immediate medical attention to result in any of the following: (a) placing the health of an individual, or with respect to a pregnant member, the health of the member or their unborn child, in serious jeopardy, (b) serious impairment to bodily functions, or (c) serious dysfunction of any bodily organ or part.

b. **“Medical Necessity”** or **“Medically Necessary”** or **“Medically Necessary Services or Supplies”** has the definition set forth at N.C. GEN STAT. § 58-3-200(b), which, as of the Effective Date, is as follows: those Covered Services (or supplies) that are: (1) provided for the diagnosis, treatment, cure, or relief of a health condition, illness, injury, or disease, and, except as allowed under N.C. GEN. STAT. § 58-3-255 (regarding coverage of clinical trials), not for experimental, investigational, or cosmetic purposes; (2) necessary for and appropriate to the diagnosis, treatment, cure, or relief of a health condition, illness, injury, disease, or its symptoms; (3) within generally accepted standards of medical care in the community; and (4) not solely for the convenience of the insured (i.e., the Covered Person), the insured’s family, or the provider.

For Medically Necessary services, nothing herein precludes a Payor from comparing the cost effectiveness of alternative services or supplies when determining which of the services or supplies will constitute Covered Services.

c. **“Intermediary”** has the definition set forth at 11 N.C. ADMIN. CODE 20.0101(b)(4), which, as of the Effective Date, is as follows: an entity that employs or contract with health care providers for the provision of health care services, and that also contracts with a network plan carrier, including the Company or a Payor, or its intermediary.

d. **“Utilization Review”** or **“utilization review”** means a set of formal techniques designed to monitor the use of or evaluate the clinical necessity, appropriateness, efficacy or efficiency of health care services, procedures, providers, or facilities. These techniques may include: (a) ambulatory review - utilization review of services performed or provided in an outpatient setting; (b) case management - a coordinated set of activities conducted for individual patient management of serious, complicated, protracted, or other health conditions; (c) certification - a determination by an insurer or its designated utilization review organization that an admission, availability of care, continued stay, or other service has been reviewed and, based on the information provided, satisfies the insurer's requirements for medically necessary services and supplies, appropriateness, health care setting, level of care, and effectiveness; (d) concurrent review - utilization review conducted during a patient’s hospital stay or course of treatment; (e) discharge planning - the formal process for determining, before discharge from a provider facility, the coordination and management of the care that a patient receives after discharge from a provider facility; (f) prospective review - utilization review conducted before an admission or a course of treatment including any required preauthorization or precertification; (g) retrospective review - utilization review of medically necessary services and supplies that is conducted after services have been provided to a patient, but not the review of a claim that is limited to an evaluation of reimbursement levels, veracity of documentation, accuracy of coding, or adjudication for payment. Retrospective review includes the review of claims

for emergency services to determine whether the prudent layperson standard in N.C. GEN. STAT. § 58-3-190 has been met; (h) second opinion - an opportunity or requirement to obtain a clinical evaluation by a provider other than the provider originally making a recommendation for a proposed service to assess the clinical necessity and appropriateness of the proposed service.

NC-3 Term. The term of the Agreement is set forth in the “Term” provision of the Agreement, and the term of this Product Attachment is set forth in Section 6 of this Product Attachment. (11 N.C. ADMIN. CODE 20.0202(3))

NC-4 Written Notice of Termination; Grounds for Termination. The requirements for written notice of termination and each Party’s grounds for termination are generally set forth in the “Term and Termination” Article of the Agreement. (11 N.C. ADMIN. CODE 20.0202(4))

NC-5 Continuity of Care. Each Participating Provider shall continue to provide services to Covered Persons after termination of the Agreement or in the event of a Payor’s or Intermediary’s insolvency in accordance with the “Effect of Termination” provision of the Agreement and this Section NC-5, including, but not limited to, when inpatient care of a Covered Person is ongoing until patient is ready for discharge. In addition, in the event of a Payor’s or Intermediary’s insolvency, each Participating Provider shall continue to provide services to Covered Persons during the period for which premium has been paid. Each Participating Provider will cooperate with Company regarding the transition of administrative duties and records. To the extent that services are provided or arranged for on prepaid basis, each Participating Provider shall continue to provide inpatient care until the Covered Person is ready for discharge. Each Participating Provider shall maintain licensure, accreditation, and credentials sufficient to meet Company’s and/or Payor’s credential verification program requirements, which are set forth in the Policies. Each Participating Provider shall notify Company of subsequent changes in status of any information relating to the Participating Provider’s professional credentials in accordance with this Section NC-6 and the “Notice of Certain Events” provision of the Agreement. (11 N.C. ADMIN. CODE 20.0202(6))

NC-7 Insurance. Each Participating Provider shall maintain professional liability insurance coverage in an amount acceptable to Health Plan and will inform Health Plan of subsequent changes in status of professional liability insurance on a timely basis in accordance with this Section NC-7 and the “Insurance” provision of the Agreement. (11 N.C. ADMIN. CODE 20.0202(7))

NC-8 Hold Harmless.

- a. No Participating Provider shall bill a Covered Person for Covered Services, except for specified coinsurance, copayments, and applicable deductibles. This provision shall not prohibit a Participating Provider and a Covered Person from agreeing to continue non-Covered Services at the Covered Person’s own expense, as long as the Participating Provider

has notified the Covered Person in advance that the Payor may not cover or continue to cover specific services and the Covered Person chooses to receive the service. This Section NC-8 survives termination of the Agreement for any reason, including Plan insolvency. Each Participating Provider is responsible for collecting any applicable deductibles, copayments, coinsurance, and fees for non-Covered Services from Covered Persons. (11 N.C. ADMIN. CODE 20.0202(8))

- b. In the event Payor fails to pay for Covered Services as set forth in the Agreement, the Covered Person shall not be liable to the Participating Provider for any sums owed by the Payor. No other provisions of the Agreement will, under any circumstances, change the effect of the foregoing. No Participating Provider, or agent, trustee, or assignee thereof, may maintain any action at law against a Covered Person to collect sums owed by the Payor. (N.C. GEN. STAT. § 58-67-115(a))

NC-9 Call Coverage. Each Participating Provider shall arrange for call coverage or other backup to provide service in accordance with the Payor's standards for provider accessibility, which are set forth in the Agreement, the Provider Manual, or the Policies. (11 N.C. ADMIN. CODE 20.0202(9))

Neither Health Plan nor Payor shall in any manner penalize, terminate, or refuse to compensate for Covered Services a Provider or Participating Provider for communicating in a manner protected by this section with a current, prospective, or former patient that is a Covered Person, or a person designated by a patient that is a Covered Person. (TEX. INS. CODE ANN. §§ 843.363, 1301.067)

(TEX. INS. CODE ANN. § 1301.061)

Neither Health Plan nor Payor may recover an overpayment to Provider or a Participating Provider if, not later than the one hundred eightieth (180th) day after the date the Participating Provider receives the payment, the Payor, Health Plan or one of their delegates provides written notice of the overpayment to Provider or the Participating Provider that includes the basis and specific reasons for the request for recovery of funds, and either Provider or the Participating Provider makes arrangements for repayment of the requested funds on or before the forty-fifth (45th) day after the date the notice is received. (TEX. INS. CODE ANN. §§ 843.350, 1301.132)

Health Plan may sell, lease, or otherwise transfer information regarding the payment or reimbursement terms of this Agreement (and its Addenda and Attachments) to such persons and Payors. Health Plan will provide prior notification to Provider of the persons and Payors to whom access is granted by providing the name of the Payor by electronic mail, through its provider newsletter or on its provider website; provided, however, Provider acknowledges that prior adequate notice has been provided with respect to Health Plan, and all self-funded groups existing as of the date hereof. Provider expressly acknowledges that Health Plan may provide the persons and Payors described above with access to Health Plan's rights and responsibilities under this Agreement. On request of Provider or a Contracted Provider, Health Plan will provide information necessary to determine whether a particular person has been authorized to access the Provider's or a Contracted Provider's health care services and the contractual discounts provided for herein. To the extent required by applicable law, this Agreement specifies the applicable fee schedule for each Product and/or line of business contemplated by this Agreement. Pursuant to its signature on the Product Attachments attached hereto, Provider provides its express authority with respect to each line of business and the fee schedule applicable to each such line of business.

The following provisions are only applicable to EPO product line:

TX-11 Contracting with Others. This Agreement does not restrict a participating provider from contracting with other insurers, preferred provider plans, preferred provider networks or organizations, exclusive provider benefit plans, exclusive provider networks or organizations, health care collaborative, or HMOs. (28 TEX. ADMIN. CODE § 3.3703(a)(1))

TX-12 Limitation on Participation. Any term or condition of this Agreement limiting participation on the basis of quality considerations shall be construed to be consistent with established standards of care for the applicable profession. (28 TEX. ADMIN. CODE § 3.3703(a)(2))

TX-13 Provider Privileges. In the case of participating providers who provide a significant portion of care in a hospital or institutional provider setting, this Agreement may require the possession of practice privileges at participating hospitals or institutions, provided, however, if no participating hospital or facility offers privileges to a certain class of physicians or providers, the lack of hospital or facility provider privileges may not be a basis for denial of participation as a participating provider to such physicians or providers of that class. (28 TEX. ADMIN. CODE § 3.3703(a)(3))

TX-14 Staff Membership or Privileges. A physician or provider is not required to enter into a participating provider agreement as a condition of staff membership or privileges at a particular hospital or facility. This prohibition does not apply to requirements concerning practice conditions other than conditions of membership or privileges. (28 TEX. ADMIN. CODE § 3.3703(a)(4))

TX-15 Billing for Unnecessary Care. A participating provider will not bill the member for unnecessary care, if the care has been determined to be unnecessary, provided, however, the participating provider will not be required to pay for hospital, institutional, laboratory, x-ray, or like charges resulting from the provision of services lawfully ordered by a physician or provider, even though such service may be determined to be unnecessary. (28 TEX. ADMIN. CODE § 3.3703(a)(5))

TX-16 Referrals to Other Providers. This Agreement does not impose restrictions on the classes of physicians and providers who may refer a member to another physician or provider. This Agreement does not require a referring physician or provider to bear the expenses of a referral for specialty care in or out of the participating provider network. (28 TEX. ADMIN. CODE § 3.3703(a)(6))

TX-17 Financial Incentives. Financial incentives will not be provided to a physician or a provider that act directly or indirectly as an inducement to limit medically necessary services. The requirements of TX-16 (above) and this Paragraph TX-17 do not prohibit the savings from cost-effective utilization of health services from being shared with participating providers in the aggregate. (28 TEX. ADMIN. CODE § 3.3703(a)(7))

TX-18 Resolution of Complaints. This Agreement provides for a mechanism for the resolution of complaints initiated by a member, a physician, physician group, or provider, which mechanism provides for reasonable due process including, in an advisory role only, a review panel selected in accordance with Section 3.3706(b)(2) of the PPO/EPO Regulations. (28 TEX. ADMIN. CODE § 3.3703(a)(8))

TX-19 Hold Harmless. A provider, physician, or physician group will not be required to execute a hold harmless clause that shifts the tort liability resulting from acts or omissions of Health Plan to the participating provider. (28 TEX. ADMIN. CODE § 3.3703(a)(9))

TX-20 Member Billing. Any participating provider who is compensated on a discounted fee basis agrees to bill the member only on the discounted fee and not the full charge. (28 TEX. ADMIN. CODE § 3.3703(a)(10))

Health Plan may not in any way penalize, terminate the participation of, or refuse to compensate for covered services, a physician or health care provider for discussing or communicating with a current, prospective, or former member, or a person designated by a member. (28 TEX. ADM. CODE § 3.3703(a)(13))

TX-24 Economic Profiles. To the extent Health Plan conducts, uses or relies upon economic profiling to terminate physicians or providers from a plan, it will make available to a physician or provider on request the economic profile of that physician or provider, including the written criteria by which the physician's or provider's performance is to be measured. An economic profile must be adjusted to recognize the characteristics of a physician's or provider's practice that may account for variations from expected costs. (28 TEX. ADMIN. CODE § 3.3703(a)(14))

TX-25 Quality Assessments. To the extent Health Plan engages in quality assessments, it will do so in accordance with the requirements of applicable law through a panel of at least three physicians selected by Health Plan from among a list of participating physicians. A pharmacist will not be prohibited from administering immunizations or vaccinations if such immunizations or vaccinations are administered in accordance with the Tex. Occ. Code Chapters 551-566 and 568-569, and applicable rules promulgated thereunder. (28 TEX. ADMIN. CODE § 3.3703(a)(17))

TX-28 Member Notice upon Termination. If the participating provider voluntarily terminates this Agreement, the participating provider must provide reasonable notice to the member, and Health Plan will provide assistance to the participating provider in assuring that such notice is provided. (28 TEX. ADMIN. CODE § 3.3703(a)(18))

TX-29 Termination Review. Written notice will be provided to the participating provider on termination of this Agreement by Health Plan, and such notice will include the participating provider's right to request a review. (TEX. ADMIN. CODE § 3.3703(a)(19))

TX-30 Information on Compensation. The participating provider is entitled, upon request, to all information necessary to determine that the participating provider is being compensated in accordance with

the terms of this Agreement. The participating provider may make the request for information by any reasonable and verifiable means. The information must include a level of detail sufficient to enable a reasonable person with sufficient training, experience, and competence in claims processing to determine the payment to be made for covered services that are rendered to members. Health Plan may provide the required information by any reasonable method through which the participating provider can access the information, including e-mail, website, computer disks, paper, or access to an electronic database. Health Plan will provide the fee schedules and other required information by the 30th day after receipt of the request.

a. This information will include a specific summary and explanation of all payment and reimbursement methodologies that will be used to pay claims submitted by the participating provider, including the information required in Section 3.3703(a)(20) of the PPO/EPO Regulations.

b. In the case of a reference to source information as the basis for fee computation that is outside the control of Health Plan, such as state Medicaid or federal Medicare fee schedules, the information will clearly identify the source and explain the procedure by which the participating provider may readily access the source electronically, telephonically, or as otherwise agreed to by the parties.

c. Nothing herein may be construed to require Health Plan to provide specific information that would violate any applicable copyright law or licensing agreement. However, Health Plan will supply, in lieu of any information withheld on the basis of copyright law or licensing agreement, a summary of the information that will allow a reasonable person with sufficient training, experience, and competence in claims processing to determine the payment to be made for covered services that are rendered to members.

d. No amendment, revision, or substitution of claims payment procedures or any of the information required to be provided will be effective as to the participating provider, unless Health Plan provides at least 90 calendar days written notice to the participating provider identifying with specificity the amendment, revision, or substitution. Health Plan will not make retroactive changes to claims payment procedures or to any of the information required to be provided as described above.

e. A participating provider that receives the information described above (i) may not use or disclose the information for any purpose other than for practice management, billing activities, other business operations, or communications with a governmental agency involved in the regulation of health care or insurance; (ii) may not use the information to knowingly submit a claim for payment that does not accurately represent the level, type or amount of services that were actually provided to a member or to misrepresent any aspect of the services; and (iii) may not rely upon the information as a representation that a member is covered for that service under the terms of the member's policy or certificate.

f. A participating provider that receives the information described above may terminate this Agreement on or before the 30th day after the date the participating provider receives the information without penalty or discrimination with respect to the participation in other health care products or plans of Health Plan. If a participating provider chooses to terminate the Agreement, Health Plan is required to assist the

participating provider in providing the notice required by Paragraph 18 above. (28 TEX. ADMIN. CODE § 3.3703(a)(20))

TX-31 Other Health Benefit Coverage. A participating provider must retain in its records updated information concerning a member's other health benefit plan coverage. (28 TEX. ADMIN. CODE § 3.3703(a)(21))

TX-32 Claim Submission. Upon request by a participating provider, Health Plan agrees that it and its clearinghouse will not refuse to process or pay an electronically submitted clean claim because the claim is submitted together with or in a batch submission with a claim that is deficient. As used in this paragraph, the term batch submission is a group of electronic claims submitted for processing at the same time within a HIPAA standard ASC X12N 837 Transaction Set and identified by a batch control number. (28 TEX. ADMIN. CODE § 3.3703(a)(22))

TX-33 Referral Information. A referring physician or provider, or a designee, must disclose to the member (a) that the physician, provider, or facility to whom the member is being referred might not be a participating provider; and (b) if applicable, that the referring physician or provider has an ownership interest in the facility to which the member is being referred. The notice specified in (a) will allow for exceptions for emergency care and as necessary to avoid interruption or delay of medically necessary care and will not limit access to nonparticipating providers. (28 TEX. ADMIN. CODE § 3.3703(a)(23) and (24))

TX-34 Overpayments. The participating provider who receives an overpayment from a member must refund the amount of the overpayment to the member not later than the 30th day after the date the participating provider determines that an overpayment has been made. (28 TEX. ADMIN. CODE § 3.3703(a)(25))

Any additional Regulatory Requirements that may apply to the Coverage Agreements or Covered Persons enrolled in or covered by this Product may be set forth in the Provider Manual or another Attachment. To the extent that a Coverage Agreement, or a Covered Person, is subject to the law cited in the parenthetical at the end of a provision on this Schedule A, such provision will apply to the rendering of Covered Services to a Covered Person with such Coverage Agreement, or to such Covered Person, as applicable.

NE-1 Notice of Termination. Company, Provider, and each Participating Provider may not terminate the Agreement or, with respect to a Participating Provider, his, her or its participation under the Agreement, without cause unless he, she or it provides at least sixty days' advance written notice of termination. (NEB. REV. STAT. § 44-32,142, § 44-7106(2)(k))

NE-2 Continuation of Care.

remuneration, or reimbursement from, or have any recourse against a Covered Person or a person, other than the Payor or Intermediary, acting on behalf of the Covered Person for health care services provided pursuant to the Agreement. The Agreement does not prohibit the Provider from collecting coinsurance, deductibles, or copayments, as specifically provided in the evidence of coverage, or fees for non-Covered Services delivered on a fee-for-service basis to Covered Persons. Nor does the Agreement prohibit Provider or a Participating Provider, except for a health care professional who is employed full time on the staff of Company and has agreed to provide health care services exclusively to that Company's Covered Persons and no others, and a Covered Person from agreeing to continue health care services solely at the expense of the Covered Person, as long as Provider or the Participating Provider has clearly informed the Covered Person that Company may not cover or continue to cover a specific health care service or health care services. No Provider or Participating Provider, or agent, trustee, or assignee of Provider or a Participating Provider, may maintain any action at law against a Covered Person to collect sums owed by the Payor. NE-7 No Discrimination. Provider and each Participating Provider will furnish Covered Services to all Covered Persons without regard to a Covered Person's enrollment under a Coverage

Agreement whether it is entered into, issued, or agreed to by a Payor that is a private purchaser or a participant in a publicly financed program of health care services. (NEB. REV. STAT. § 44-7106(2)(m))

NE-8 Coinsurance. Participating Providers will collect the applicable coinsurance, copayments, or deductibles, if any, from Covered Persons pursuant to the Coverage Agreement and will notify Covered Persons of their personal financial obligations for non-Covered Services. (NEB. REV. STAT. § 44-7106(2)(n))
